# THE TERMS OF THIS IMPORTANT SALE ARE AS FOLLOWS:

PLEASE NOTE: I respectfully solicit your bids for this outstanding Sale. I am sure that you will want at least some items from this great Sale. I assure you that your bids will be executed by me as fairly as if you had been present at the Sale.

BUT,—**before bidding, please read the following terms**, as they are the **ONLY** terms upon which your bids will be accepted. And no exception can or will be made for anyone. I mention this because at every Sale someone ignores the Terms as here published, and misunderstandings occur. I am endeavoring to avoid this. So please take a few moments time to read the Terms of Sale.

All bids are entered as received and the lots allotted to the highest bidder. Where two or more highest bids for the same amount are received for the same lot (and this happens very frequently) the first bid received gets the lot. Where two or more unlimited bids are received for a certain lot, the lot is purchased for the first received. Unlimited bids are executed at an advance of five per cent (5%) over the next highest bid.

When I receive your bids, I consider myself as your agent and execute your bids at as much under your bids as the next highest bid will permit. In other words, your bids are executed for you by me just as faithfully as if you had yourself been present at the Sale.

**No commission charge will be made on purchases made for you at this Sale.**

All lots are sold just as cataloged. No lot is broken under any circumstances. Please be sure and bid by the number of the lot and at **SO MUCH PER PIECE**. As an example, if there are ten pieces in the lot and you want to make your bid \$1.00 for the lot, make your bid 10c, and not \$1.00.

I guarantee all coins and notes to be genuine unless otherwise described or stated in the Catalog. **But all claims of any nature or for any reason must be made within thirty days from date of Sale.** My guarantee means something to you. Please remember that there are more than forty years of proven successful numismatic experience and ample financial responsibility back of my guarantee.

NOTICE TO NEW BIDDERS: Buying coins at auction is not the same as receiving coins on approval. The coins are bought for you on your order and you are, of course, expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid on the correct lot you desire and at **SO MUCH PER PIECE**.

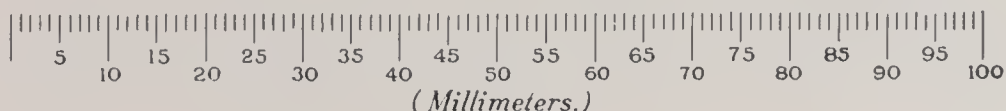

PLEASE NOTE: Parties unknown to me and who have not had any previous credit established, or do not have a financial rating in Dun & Bradstreet, must send a deposit of at least 25% of the amount of their bids, **otherwise they cannot and will not be accepted.**

The Price List of this great Sale will be printed on the same quality paper as the body of the catalog, and of the same page size. The Price List will show the amount each and every coin sold for. Price for this list now is only \$1. But this price holds good only until date of Sale, after which the price will be \$2.

PLEASE NOTE: This Sale is so huge, it may take longer to dispatch the lots to the successful bidders. The Price Lists may be a little late in being distributed, so please be patient. The Price Lists will be dispatched as promptly as is humanly possible.

Of course, all bids must be in my office on or before the date of sale. In this instance, I will appreciate more than ever before if you will kindly send your bids in early. By so doing you will earn my gratitude and you may obtain a lot which you may miss by sending your bids late.

The Size of Coins and Medals in this Catalog is given by Millimeters.

## LARGE UNITED STATES COPPER CENTS

Coinage began in 1793 and discontinued in 1857. Coined in every year excepting only 1815. Minted at the Philadelphia Mint only. The series of large copper cents has always been and is today one of the most popular series of all our coinage.

Lot No.

- 1 **1793** First year and first type of issue. Bust of Liberty with flowing hair, facing right. Date below, LIBERTY above. Reverse, chain of fifteen links within which ONE CENT 1/100. Legend, UNITED STATES OF AMERI. Vine and bars on edge. Crosby 1-A. Very fine with slight glossy steel color. Only highest portions show cabinet friction. As is usual on this particular variety, the EN is not as bold as the C and T. Seldom found better or even equalled. Rare and in much demand. A similar specimen in my Atwater Sale brought \$132.50, but in my humble opinion the coin is really worth more today.
- 2 **1793** Chain type. Crosby 1-A. Just as last. The obverse is very fine with the reverse strictly fine to very fine. The legend is bold. Weakly struck in center as last. Light hardly noticeable hairlines on reverse and a tiny nick on right obverse edge. Medium brown surface. Record over \$100.00.
- 3 **1793** Chain. Type as last, but variety with AMERICA. Crosby 3-C. Large planchet with raised borders. Extremely fine with glossy steel color. Two imperceptible hardly noticeable short hairlines on upper left obverse. Attractive steel color. Rare and valuable. Said to have cost \$300.00.
- 4 **1793** Another just as last, but trifle smaller planchet. Fine to very fine with surface slightly roughed. Rare.
- 5 **1793** The second type with wreath instead of chain. Liberty head with heavier flowing locks. LIBERTY is small, so is the date. Sprig between bust and date. Reverse, wreath enclosing ONE CENT; fraction below. Legend, UNITED STATES OF AMERICA. Vine and bars on edge. Crosby 7-F. Extremely fine, only the barest touch of circulation. Unusually bold impression with very attractive slightly glossy medium brown surface. Perfectly centered with slightly raised borders. A magnificent Cent. Rare and valuable so choice. An uncirculated specimen in my Atwater Sale brought \$1,050.00.
- 6 **1793** Another as last. Same type and same die variety, Crosby 7-F. Struck on slightly larger planchet. Strictly very good; can be classed as fine for coin. Minute nicks on edge. Rare and valuable.

## LARGE U. S. CENTS, 1793

- 7 **1793** Type as last, but different die, Crosby 9-G. Variety with diagonal die break across center of reverse. The break is very light. A beautiful **uncirculated** specimen. Bold impression and perfectly centered. An even glossy medium olive surface with traces of mint red nicely blended on reverse. Truly a gem. Said to have cost \$750.00. *ex. Stack's 5/44 \$600.*
- 8 **1793** Wreath type. Crosby 9-H. Very fine. Unusually bold impression, especially on reverse, but the fraction weakly struck. Very fine. Very slightly roughed surface. A coin that usually now retails for about \$75.00.
- 9 **1793** Stem of sprig is straight. Crosby 10-I. Very fine with very slightly roughed surface. Bold impression. Medium dark olive surface. As valuable as last.

### The Extremely Rare Liberty Cap Cent of 1793

#### Lot No.10

**1793** The famous and extremely rare variety of the 1793 Cent with Liberty head facing to right and Liberty cap on pole over left shoulder. LIBERTY above, date below. Reverse, wreath enclosing value, ONE CENT, fraction below wreath. Legend, UNITED STATES OF AMERICA. The edge is lettered ONE HUNDRED FOR A DOLLAR. Beaded borders. Variety classified by Crosby as 12-L. One of the most beautiful specimens of this rarity known. It was originally purchased by Mr. Geiss as uncirculated and the coin is just that, only the highest portions show the very slightest cabinet friction. The cheek and highest portions of hair were struck so high that it must show some slight cabinet friction. A medium light even light brown surface, slightly glossy. A magnificent Cent and of greatest rarity. A strictly uncirculated specimen in my Atwater Sale brought \$2,000.00. While I hardly would claim this Cent to be worth \$2,000.00, but it is certainly worth not far from it. It is probably the second or third finest specimen known of this rare Cent.

*ex. Stack's 5/44 \$800.*

*This is the coin, not the one in the sale*

# LARGE U. S. CENTS, 1793-1795

Lot No.

*VF-35* 11 **1793 Liberty cap** variety. Same variety as last, Crosby 12-L. And almost as choice. Another specimen which Mr. Geiss purchased as uncirculated. While the coin shows slight cabinet friction, but I doubt very much if the coin has ever been in circulation. It is boldly struck even on the center of reverse which is usually weak on this variety. Attractive and nicely blended medium olive surface. This beautiful specimen is from the famous Dr. Hall Collection of Boston, also of the Virgil Brand Collection of Chicago. I consider this coin just about on a par in quality and value as the preceding specimen, Lot No. 10.

*to Rodney T. Moore*

*to B. G. Johnson (St. Louis S. & C. Co.) 6/14/44 \$267.50 - James P. Randall to Geiss*

12 **1793 Liberty cap.** Same type and variety as last, Crosby 12-L. Fine to very fine, especially for this coin. The center of reverse is well struck. Free from any nicks or dents. Even steel color. Far above the average for this rare and valuable Cent. In fine condition only it catalogs for \$100.00.

*VG-10* 13 **1793 Liberty cap.** Same type as last, but different die variety, Crosby 12-K. Extremely rare variety. Portion of ONE CENT on reverse is not boldly struck up, as is usual in this particular variety. The coin can easily be classed as very fine, especially for this rarity. The reverse is struck slightly off center but with full beaded border. Even medium steel color. Seldom found better or even equalled. Extremely rare and valuable. Worth well into the three-figure mark.

*to Chris Peterson - Lincoln-Kagin coin copy - 2/5/6 - Harold*

14 **1794** Bust of Liberty similar to last and the same general type. Wide date with 1 almost touching curl. Hays 16, Rarity 3. Strictly fine to very fine; dark chocolate color; surface very slightly roughed. Very scarce.

15 1794 Slightly larger planchet; so-called thin wreath on reverse. Hays 17. Extremely fine with bold impression; medium brown surface evenly toned. Very scarce so choice.

16 1794 Hays 24. Evenly spaced date. Very fine with broad raised milled borders, especially on reverse. Variety with die breaks to left of O and C in ONE CENT. Even chocolate color.

*5-74* 17 **1795** The scarce variety with thick planchet and lettered edge. Top of figure 5 in date partly merged with bust. Reverse, ONE CENT fairly high in wreath with leaf at left of O in ONE very close. Extremely fine; medium steel color. Very scarce variety in rare condition. Catalogs at \$20.00 in only fine. This one worth much more. A similar specimen brought \$57.50 in my Atwater Sale.

*5-75* 18 1795 Lettered edge as last, but different die variety. Nearly the entire top of figure 5 is merged with bust. Reverse, leaf distant from O in ONE. A small nick on neck of Liberty and two minute nicks on reverse edge. These are hardly noticeable and do not affect the appearance or value of the coin. Strictly very fine with even dark olive surface. Catalogs at \$20.00 in fine. This specimen worth more.

*5-75* 19 1795 Lettered edge as last and same variety. Strictly very good; can be classed as fine for this coin. Dark steel color. Very scarce variety.

20 1795 Lettered edge as last. Very good. Scarce.

MINTED in 1804**

Lot No.

- 89 **1804** Variety with perfect dies on obverse and reverse. The coin is extremely fine. The only slight imperfection is some slight nicks at E and S of STATES on reverse. It is with strong bold impression, well centered, and an even glossy medium olive surface. One of the finest cents of this rare date that has passed through my hands in sometime. Valued by Mr. Geiss at \$500.00. This may and may not be a high valuation, but an 1804 cent in extremely fine condition is a real honest-to-goodness rarity. *cf. Stack's 5/44 \$500.*

*to Louis E. Eliasberg, Jr.*

- 103 1808 Thirteen stars. **Beautiful uncirculated specimen** with every star filled. Also beautiful golden brown surface, nicely blended with original mint red. Die breaks on reverse. This is supposed to be the die of the twelve-star variety, but the first star on lower left which is usually weakly struck and sometimes not visible is rather bold on this specimen. I do not recall of having seen more than one or two equal 1808 cents. It is equal to the wonderful specimen in the great Collins' Collection. It is a gem of the highest order. Cost \$100.00.
- VF-30 104 1808 So-called twelve-star variety; the first star on left hardly visible, making twelve stars appear on the coin. The die breaks on reverse are rather faint. Strictly fine. Scarce. Catalogs at \$10.00 in this condition.

- 106 1809 Variety with small die break at third star at right. Very fine; medium glossy olive. The reverse is unusually bold for this coin. Rare and valuable. Catalogs at \$25.00 in fine. An extremely fine specimen in my Sale of the Atwater Collection brought \$43.00.
- 107 1809 Another of the same variety as last. A tiny nick through O of date. Strictly fine. Originally purchased as very fine.
- 108 1809 Perfect die. Strictly fine. Can easily be classed as very fine. Steel color. Very scarce. Difficult to obtain in almost any condition.
- 109 1809 Another as last. Fine to very fine; dark olive.

## HALF CENTS; SILVER DOLLARS

Lot No.

- 316 1857 Last year of issue. Brilliant iridescent proof. A very tiny planchet nick on upper right reverse edge. This is hardly noticeable and does not affect the appearance or value of the coin. Rare in proof. An uncirculated specimen of this coin is listed at \$7.50. In proof condition it should be worth several times that amount.
- 317 1773 Virginia Half-Cent. Portrait of George III. Uncirculated, partly mint red.

### BEAUTIFUL COLLECTION OF UNITED STATES SILVER DOLLARS

The following beautiful silver Dollars are all of the Philadelphia Mint unless otherwise described. Coinage began in 1794; discontinued in 1804; coinage resumed in 1836. None minted in 1837. Coined continuously from 1838 to 1873, then from 1878 to 1904. Coinage resumed again in 1921 and coined to 1928 inclusive. Coinage resumed in 1934 and discontinued again in 1935.

- 320 1795 First type. Liberty head with flowing hair. Variety with two leaves under wings. Point of curl touches point of star. **Uncirculated**, sharp, with iridescent frosty mint luster. Well centered and struck. From the famous Colonel Green Collection. Record for similar specimens, well over \$100.00.
- 321 1795 Head type. So-called "small head" variety. Curl distant from star. Reverse, three leaves under wings. Six berries on right branch and seven berries on left. Extremely fine, sharp. Rare so choice. From the great Atwater Collection at \$48.00.

- 322 1795 Bust type. Variety with curl touching star. Reverse, seven berries on left branch. **A beautiful perfect uncirculated specimen** with full mint luster. A gem of the highest order. From the famous Atwater Collection at \$157.50.
- 323 1797 Seven stars to right and nine stars to left. Reverse, large letters. **Uncirculated**; highest portions show slight cabinet friction. Iridescent mint luster. Rare so choice. From the great Colonel Green Collection. Record for a similar specimen, \$85.00.

## U. S. SILVER DOLLARS, 1799-1836

Lot No.

- 324 1799 over '98. Very plain over-date. The rare variety with small stars on obverse. **Uncirculated** with frosty mint luster. Well centered and struck. Very rare so choice. From the Atwater Sale at \$67.50. Record \$75.00. This is an extremely rare variety.
- 325 1799 Perfect date. Large stars; six stars to right of bust. Sharp uncirculated. Variety with faint die breaks on obverse. Unusually bold impression. Lot 205 of the great Atwater Sale, at \$70.00.
- 326 1800 Perfect dies. Purchased by Mr. Geiss as uncirculated, and I believe the coin is just that, although the highest portions show some slight cabinet friction and some die file marks on obverse. A scarce date in rare condition. From the Colonel Green Collection at \$35.00.
- 327 1801 **Uncirculated;** sharp. Perfectly centered with milled borders; every star filled. Frosty mint luster; the highest portions on cheek and bust show slight cabinet friction. Very rare so choice. From the Colonel Green Collection at \$75.00.
- 328 1802 Perfect date. Uncirculated, sharp, with iridescent full mint luster. From the famous Colonel Green Collection at \$50.00. While the rarity and value of these beautiful early silver dollars are now being appreciated somewhat more than they have been in the past, but I still think the present prices are in their infancy.
- 329 1803 Small 3 in date. Beautiful uncirculated specimen with full mint luster. Just about as perfect as the day it was minted. From the famous Atwater Collection at \$147.50.

### The BEAUTIFUL and RARE GOBRECHT FLYING EAGLE DOLLARS

- 330 1836 Liberty seated, C. GOBRECHT, name of the artist, incused or stamped in on base of Liberty. Reverse, flying eagle amidst twenty-six stars. A **magnificent perfect brilliant proof**. Just about as perfect as is possible to obtain. Plain-edge variety. I consider this as beautiful a silver dollar as ever minted. Rare and in great demand. A specimen in my great Atwater Sale, which had a few microscopic nicks, brought \$137.50. The specimen here offered is superior and should bring a correspondingly higher price.

Lot No.

- 331 **1836** Flying eagle Dollar as last, but the excessively rare variety with C. GOBRECHT between base and date. Plain edge. A **perfect magnificent brilliant proof**. I feel confident that there is not a more beautiful specimen than this one in existence. It is simply a thrilling coin to look at, and, of course, more thrilling to own. Only eighteen specimens said to have been struck. A similar specimen of my sale of the Atwater Collection brought \$355.00.
- 332 **1838** Type as last, Liberty seated, but with thirteen stars, and without the name of the designer. Reverse, flying eagle, but without stars in the field. Milled edge. **Beautiful brilliant proof**. Record, \$437.50. It would not surprise me to see this rarity soon reach the \$500.00 mark, as its rarity and beautiful state of preservation is certainly worthy of it.
- 333 **1839** Same type as the 1838; milled edge. A **sharp perfect brilliant proof**. Just as perfect as the moment it dropped from the die. A gem, and as such, of highest rarity. This identical specimen is from the Roe Collection, Lot 433, which brought \$315.00.

**The NEW GOBRECHT TYPE DOLLARS from 1840 to 1873**  
**NEARLY ALL in BRILLIANT PROOF CONDITION**

- 334 1840 Obverse, type of 1839. Reverse, standing eagle with olive branch in right talon, and three arrows in left. **Proof**, sharp edge. Extremely rare in proof. Record for this date in proof condition, \$145.00.
- 335 1841 Same type as last. This type prevailed to 1865 inclusive. Brilliant semi-proof. Originally purchased by Mr. Geiss as a proof. Slight evidence of cabinet friction. While this coin is not strictly a proof, but it is certainly near to it and sufficiently beautiful to be worthy of a home in the finest collection. Record for a proof of this date, over \$140.00.
- 336 1842 Brilliant semi-proof with very slight evidence of cabinet friction. Just about equal to a perfect proof and it was so purchased by Mr. Geiss. Record well over \$100.00 for a proof of this date Dollar.
- 337 1843 **Perfect brilliant proof**. Extremely rare in this remarkably beautiful state of preservation. Record over \$140.00.
- 338 1844 **Perfect brilliant proof gem**. Sharp with partly wire edge. Rare date in extremely rare condition. Record over \$150.00. I doubt very much if more than a dozen specimens exist of these early Dollars of each date in proof condition.
- 339 1845 **Brilliant proof** with wire edge. The 84 of date is double-struck. From the Jack Roe Collection at \$152.50. Extremely rare so choice.
- 340 1846 **Brilliant proof**, wire edge. An imperceptible nick on lower reverse border and a tiny, hardly noticeable, flake below eagle's beak. Very rare so choice. Record over \$150.00.
- 341 1846 Brilliant semi-proof, almost equal to a proof. Partly sharp edge. Not a rare date, but quite rare so choice.
- 342 1847 **Perfect brilliant proof** with rather high wire edge on obverse. The 4 in date is partly double struck. A gem. Very rare. Record \$150.00.

## U. S. SILVER DOLLARS, 1848-1856

Lot No.

- 343 1848 **Brilliant proof**, partly wire edge. Sharp and perfect in every respect. A real gem, and as such, rare and valuable, with record of over \$150.00.
- 344 1849 **Perfect brilliant proof**. Just as perfect as the moment it dropped from the die. Excessively rare. Not even in the Roe nor in the Atwater Collection. Of highest rarity.
- 345 1850 **Perfect brilliant proof**. Just as perfect as last. Not in the Atwater Sale. Record \$150.00. Mr. Geiss paid \$165.00 for this beautiful specimen. Some day these prices will seem insignificantly low, because these early dollars in proof condition are of far greater rarity than we now realize.
- 346 1850 Duplicate. Semi-proof, but shows considerable handling or cabinet friction. Scarce date in choice condition.

- 347 1851 **Perfect brilliant proof**. As perfect a gem of this extremely rare Dollar as exists. Certainly as perfect as it is possible to obtain. From the Roe Sale. Originally from the Colonel Green Collection. Cost \$275.00.
- 348 1852 Another great rarity. **Perfect brilliant proof gem**. As beautiful as exists. From the Roe and Colonel Green Collections. Cost \$275.00 and certainly worth it.
- 349 1852 Duplicate. **Proof** but not as brilliant as the preceding specimen. A short light scratch on upper reverse left field. This specimen has an unusually high wire edge on obverse. While not as beautiful as Lot 348, but is a sufficiently beautiful Dollar for any collection.
- 350 1853 **Proof**. Beautiful iridescent purple surface, brilliant. From the E. E. Lamb Collection of Chicago. Partly wire edge. Extremely rare. In my humble opinion, this date Dollar in proof condition is just as rare as the 1851 and 1852. The Roe and Atwater Collections, which had practically all of the Dollars in proof condition, did not have a specimen in proof of the 1853.
- 351 1854 **Perfect brilliant proof**. Quite a rare date, but excessively rare in this beautiful condition. Record \$75.00.
- 352 1855 **Brilliant proof**. Another very scarce date in very rare condition. From the Olsen Collection at \$62.50, but since then a similar specimen sold for over \$100.00 in my Sale of the Roe Collection.
- 353 1856 **Perfect brilliant proof**. Just as perfect as the day it was minted. Superior to the specimen in my Sale of the great Atwater Collection where a similar coin brought \$75.00.

## U. S. SILVER DOLLARS, 1857-1873

Lot No.

- 354 1857 Semi-proof, brilliant. A light hair line on right obverse field, and a tiny nick on upper left reverse. Almost equal to a brilliant proof. Very scarce so choice. A proof specimen of this date has a record of \$50.00.
- 355 **1858 Perfect brilliant proof**, sharp with sharp edges. Only eighty specimens said to have been struck.. Latest auction record \$185.00. This specimen is worthy of a new record.
- 356 1859 **Perfect brilliant proof**. A very tiny pin-point nick on upper right field of reverse. Sharp. A gem coin. In much demand. Record \$35.00.
- 357 1860 **Brilliant proof**. Very slightest cabinet friction. Scarce. Record \$30.00.
- 358 1861 **Brilliant proof**. A very tiny light hair line on left obverse field; not affecting the appearance or value of the coin. Very scarce date, in much demand. Record \$31.00 and price steadily advancing, as on all other proof Dollars.
- 359 1862 **Brilliant proof**. Record \$30.00.
- 360 1863 **Brilliant proof**. The slightest hair lines on reverse hardly noticeable. Record \$22.00.
- 361 1864 **Perfect brilliant proof**. A gem specimen and very scarce. Record over \$20.00.
- 362 1864 Duplicate. **Brilliant proof**, partly wire edge. Just the very slightest, hardly noticeable, cabinet friction.
- 363 1865 **Brilliant proof** partly wire edge. Record over \$22.00.
- 364 1866 Variety with motto over eagle. First year of this type. **Perfect brilliant proof gem**. Raised borders with wire edge. Record \$26.00.
- 365 1867 **Perfect brilliant proof**, wire edge. Record up to \$25.00.
- 366 1868 **Brilliant proof**, wire edge. Very scarce. Valuable as last.
- 367 1868 Duplicate. **Brilliant iridescent purple proof**. A small spot on reverse of purple color, blending in nicely with the surface.
- 368 1869 **Brilliant proof**, partly wire edge. Record near \$20.00.
- 369 1870 **Brilliant proof**. Record over \$15.00.
- 370 1871 **Perfect brilliant proof**, sharp wire edge. Record over \$13.00.
- 371 1872 **Iridescent light purple proof**, wire edge. Very scarce. Record over \$18.00, although it catalogs for \$12.50. But collectors realize the real scarcity of these proof Dollars, of which, to begin with, only a very limited number were struck, of which probably more than half have since been destroyed. And with the tremendous increase in the number of collectors, these beautiful Dollars are certain to greatly increase in value from time to time.
- 372 1873 Last year of the Liberty seated type. **Perfect brilliant proof**. A similar specimen in my Atwater Sale brought \$21.00.

## The MORGAN TYPE Silver Dollars

This type Dollar was originally known as the "Bland Dollar," named for Congressman Bland, who proposed a law for the issue of these Dollars. It was designed and engraved by George T. Morgan, who was one of the assistant engravers to Charles E. Barber, the Chief Engraver at the U. S. Mint at Philadelphia. This design was used for the Dollars from 1878 to 1904, when the issue of Dollars was discontinued. It was resumed in 1921 and coined in that year only.

Lot No.

- 373 1878 First year of the Morgan type Dollar. The rare variety with seven feathers in eagle's tail. **Perfect brilliant proof.** Catalogs at \$35.00, but has a record of nearly \$40.00. In much demand, especially in this beautiful condition.

- 375 1879 Perfect brilliant proof. Catalogs \$9.00.
- 376 1880 **Perfect brilliant proof.** All of these Dollars seem to be of early impressions, as they are very boldly struck. Record \$11.00.
- 377 1881 **Perfect brilliant proof gem.** Record \$11.00.
- 378 1882 **Perfect brilliant proof.** Just as scarce as last.

- 381 1884 **Perfect brilliant proof.**

- 391 1893 **Perfect brilliant proof.** Record over \$12.00.

- 393 1894 **Perfect brilliant proof.** Scarce. Record over \$12.00.
- 394 **1895 Perfect brilliant proof.** Rare and in much demand. Last record \$47.50. Although a specimen in my Roe Sale in 1945; brought \$37.50, but just one year later, in my Sale of the great Atwater Collection it brought \$47.50. One of the very scarcest of the Morgan Dollars.
- 395 1896 **Brilliant proof.** Very scarce date in much demand. Record \$12.00.
- 396 1897 **Perfect brilliant proof.** Very scarce date. Record over \$17.00.
- 397 1897 Duplicate. **Perfect brilliant proof.** This specimen is from the Roe Collection.

## U. S. SILVER DOLLARS, 1899-1924

Lot No.

 402 1902 **Brilliant proof.** Record \$11.00.  
 403 1903 **Perfect brilliant proof.** Rare. Last record, \$21.00. A difficult Dollar to obtain in this beautiful condition.  
 404 1904 **Perfect brilliant proof.** Rare and in demand. Catalogs at \$17.50 but has an auction record of over \$20.00. Coinage discontinued in this year.  
 405 1921 Morgan type. (Coinage resumed in this year). The last year in which the Morgan type Dollars were minted. **Proof.** Very rare. Seldom offered. Not in the great Atwater Collection. Only a very few proofs struck. A similar specimen in my Sale of the Roe Collection, in 1945, brought \$55.00.  
 406 1921 Morgan type. Another just as last and also a **brilliant proof.** Mr. Geiss paid \$60.00 for this specimen. While this may seem a high price, but then we must consider that this is a real rarity. I believe this price is destined to increase tremendously in the near future when collectors really realize the rarity of this Dollar in proof condition.

### COMPLETE SET of the U. S. "PEACE DOLLARS"

The mintage of these Dollars was originally urged by the American Numismatic Association through the efficient efforts of Mr. Farran Zerbe, Past President of the Association. The joint resolution was introduced in the House of Representatives by Hon. Albert H. Vestal, Chairman of the House Committee on coinage, weights and measures. The coin was supposed to commemorate the victory of World War I and the Peace of the World. It apparently requires more than a special issue of a coin to preserve our peace. This Dollar, however, in years to come, will prove an historical coin.

- 407 1921 First issue and first type. **Proof.** This proof Dollar does not have the brilliancy of the previous proofs. It has a surface more of a brilliant uncirculated coin are semi-sandblast surface. The proof Dollars of this date are easily recognized by its border which is raised and broad and the edge sharp. According to the best information, only about eighty specimens said to have been struck, although at one time I was informed that only fifty specimens were struck. This identical coin is from the great Colonel Green Collection. It was purchased by Mr. Geiss at \$50.00. Seldom offered. *B. G. Johnson (St. Louis S. & C. Co.) 6/14/44*

### BEAUTIFUL SET of U. S. TRADE DOLLARS

The Trade Dollars were coined for the purpose of circulating in the Far East to compete with the Mexican and Spanish Dollars in circulation there at that time. The coinage began in 1873 and discontinued in 1885. However, only a very few specimens were struck in the last two years; in fact only ten and five of each respectively. From 1873 to 1878 they were minted for general circulation, and in the later years were coined only in proof condition on orders from collectors. Obviously, only a very limited number were minted of each year, about an average of 1,250. Of course, a goodly number of these have since been destroyed or the proofs impaired. I doubt if more than one-half of the average number now exist in proof condition. They have steadily advanced in value and I earnestly believe that they represent a mighty fine investment.

- 433 1873 First year of issue. Brilliant proof. Scarce and in much demand. Catalogs at \$15.00. Last record is for this amount.
- 434 1873 Duplicate. Semi-proof.

### U. S. COMMEMORATIVE HALF-DOLLARS

This beautiful and historical series of our Half-Dollars are again "coming into their own." This series includes some of our most beautiful coinage designs. They have practically more than doubled in value in the past few years. I feel confident that they are destined to become very scarce as the years go by and the number of collectors increases from time to time. The coinage of commemorative Half-Dollars began in 1892 and discontinued in 1939. There is some talk of the coinage being resumed, but so far nothing definite has been done.

**All of the following commemorative Half-Dollars are uncirculated.**

- 732 1892 Columbian Exposition. Our first commemorative Half-Dollar. Issued during the Chicago World's Fair to commemorate the discovery of America by Columbus. Some 950,000 were minted. They were sold at \$1.00 each. There is no record of the number unsold. **Proof.** Quite scarce so choice. Cost \$4.50 in this beautiful condition.
- 733 1893 Same type as last, but a much larger issue. **Proof**, not in full brilliancy, but very scarce so choice. Said to have cost \$4.50.
- 734 1915 Panama-Pacific, San Francisco. Struck at the San Francisco Mint. Columbia. Reverse, eagle on U. S. shield. Designed by Morgan. 27,134 issued. Sold at \$1.00. Uncirculated. One of our scarcest commemorative Half-Dollars. Catalogs at \$17.50. In much demand.
- 735 1915 Another as last. Uncirculated; full mint luster.
- 736 1918 Illinois Centennial. Portrait of Lincoln. In my opinion, this is one of the most beautiful coins of the series. 100,058 pieces struck. There is no record of the number sold. The coin is getting scarce and now catalogs at \$3.00.
- 737 1920 Maine Centennial. Arms of the State of Maine. 50,028 minted. Very scarce. Catalogs at \$6.00.

- 741 1921 Missouri. Variety with 2\*4, designating the 24th State admitted to the Union. Only 5,000 minted. Rare and in much demand. Catalogs \$35.00. **32.50**
- 742 1921 Alabama Centennial. Portraits of Bibb and Kilby. 59,038 minted. The highest portions not struck up boldly. Catalogs \$7.50.

Designed by the famous sculptor Borglum who carved the famous statues and portraits on Stone Mountain and in the Black Hills of the Dakotas. 2,314,709 minted. These coins had a very wide distribution, and while they are not scarce, they are historically very interesting. Catalogs at \$1.50.
- 750 1925 California Diamond-Jubilee. Minted to commemorate the 75th anniversary of California having been admitted into the Union. Miner washing gold. Reverse, California bear (the emblem of the State). 86,354 minted. Scarce. Catalogs \$5.00. **4.75**

## COMMEMORATIVE HALF DOLLARS, 1925-1935

Lot No.

- 752 1925 Norse American Centennial. A handsome coin. While not a legal tender, it is usually included in this series. It was struck by authority of United States Congress. Octagonal. Thick planchet. Retails at \$2.50.
- 753 1925 Norse American as last, but struck on thin planchet. Very scarce. Retails at \$6.50.
- 754 1926 Sesqui-Centennial. Minted to commemorate the 150th anniversary of the signing of the Declaration of Independence. Portraits of Washington and Coolidge. Reverse, Liberty bell. 1,300,528 minted. Only 141,120 sold. Balance re-melted. Catalogs \$2.50.
- 755 1926 Oregon Trail Memorial. Minted to commemorate the Oregon Trail. Indian standing with map of the United States in background. Reverse, prairie schooner drawn by oxen. One of the most beautiful coins of this series. Philadelphia Mint. 100,000 struck. Probably less than half were sold. Catalogs \$3.00.
- 756 1926 Oregon Trail as last, but of the San Francisco Mint. 100,000 struck. A goodly number were melted. Catalogs \$3.00.
- 757 1927 Vermont Sesqui-Centennial. Struck to commemorate the 150th anniversary of the battle of Bennington. A handsome coin. 40,034 minted, but only 28,142 sold; the balance re-melted. Getting very scarce. Catalogs \$4.50.

Only 10,000 struck, of which number 5,000 were sold or distributed in the Hawaiian Islands and the other 5,000 on the mainland. Very scarce and in much demand. Catalogs at \$15.00 but retails for more.
- 759 1928 Oregon Trail. Same type as the 1926 issue. Only 6,028 minted. Catalogs \$5.00.
- 760 1933 Oregon Trail as last. Struck at Denver Mint only. 5,008 minted. Rare. Catalogs \$8.00.
- 761 1934 Oregon Trail, Denver Mint. Only Mint where it was struck. 7,006 minted. Catalogs \$4.50.
- 762 1934 Maryland Tercentenary. Commemorating the 300th anniversary of the founding of Maryland. Portrait of Calvert. Reverse, Arms of the State of Maryland. 25,000 minted and all sold. Catalogs \$2.50.
- 763 1934 Texas Centennial. (A little premature, as the Texas Centennial was in 1936 and not 1934, Texas having gained its independence after the battle of San Jacinto, March 2, 1836). 250,000 coins were minted, by far the greater portion of which was re-melted. The coin now catalogs at \$2.50.
- 764 1934 Kentucky or Daniel Boone, commemorating the 200th anniversary of the birth of Daniel Boone. Portrait of Boone. Reverse, Indian Chief and Boone negotiating treaty. 10,000 pieces struck. Catalogs \$2.50.

- 766 1935 Daniel Boone. Denver Mint. Only 5,000 struck. Catalogs \$5.50.

## COMMEMORATIVE HALF DOLLARS, 1935

Lot No.

- 767 1935 Daniel Boone. San Francisco Mint. 5,000 struck. Catalogs \$5.50. Considering the small number coined of this issue, these coins should, and undoubtedly will, advance considerably in value.
- 768 1935 Connecticut. Commemorating the 300th anniversary of the founding of Connecticut. The obverse has a magnificent engraving of the famous Charter Oak. 25,000 minted. Now very scarce. Catalogs \$6.00.
- 769 1935 Arkansas Centennial. Indian and Liberty head. Reverse, eagle with outstretched wings. This is another slightly premature issue, as the Centennial of Arkansas was in 1936. 10,000 were minted at first. When these were sold, I had the honor of being invited by the Committee to come to Little Rock and make suggestions as to the number of additional coins to minted. It was through my suggestion that an additional 3,000 be minted. It was through my suggestion that an additional 3,000 be minted at Philadelphia, and in addition 5,500 of each to the entire issues of these additional coins. I think they were well distributed and now are rather scarce. The Philadelphia Mint coin catalogs \$3.00.
- 770 1935 Arkansas, Denver Mint. Scarce. Catalogs \$5.50.
- 771 1935 Arkansas, San Francisco Mint. Scarce. Catalogs \$5.50.
- 772 1935 Hudson, N. Y. Commemorating the 150th anniversary of the founding of this town. It has always been a wonder to me how a town of 14,000 population rated a commemorative coin. However, whoever was responsible for the issue of the coin, did a swell job both in its design and in its sale, as the coin was scarce from the date of issue. 10,000 were minted and were advertised at \$1.00 each. The coin now lists at \$10.00 and it is seldom obtainable at this price.
- 773 1935 San Diego, California, Pacific Exposition. Struck at the San Francisco Mint. 250,000 were struck, of which only 70,000 were sold and the balance re-melted. Catalogs \$2.75.
- 774 1935 Old Spanish Trail. A rather unusual coin. Highly interesting. 10,000 minted. Well distributed, where now the coin catalogs at \$12.50 and often retails for more.
- 775 1935 Kentucky or Daniel Boone, (again). Variety with small date, 1934, on obverse. Phila. Mint. 10,000 minted. Catalogs \$2.50.
- 776 1935 Kentucky. Variety with small 1934. Denver Mint. Only 2,000 struck. Very rare.
- 777 1935 Kentucky. Variety as last. S Mint. 2,000 minted. This pair, the D and S Mint, catalog for \$65.00. When first issued this pair sold up to \$125.00.
- 778 1935 Texas (again). Same type as 1934. Phila. Mint. 9,994 minted.
- 779 1935 Texas. Denver Mint.
- 780 1935 Texas. S. Mint. Only 10,000 minted of each. The set of three coins catalog for \$7.50, but with a small coinage I believe it is destined to increase in value considerably. The year 1936 can be appropriately termed as the deluge year of commemoratives. There were no less than thirty-two different commemorative types and varieties issued in this year. I hardly think that such an "epidemic" will occur again.

## COMMEMORATIVE HALF DOLLARS, 1936

Lot No.

- 781 1936 Rhode Island Tercentenary. Indians welcoming Roger Williams. I cannot raise any temperature over the design of this coin. 20,013 minted.
- 782 1936 Rhode Island, as last, Denver Mint. 15,010 minted.
- 783 1936 Rhode Island, San Francisco Mint. 15,011 minted. The set of three coins catalogs at \$9.00.
- 784 1936 Arkansas. Phila. Mint. 9,960 minted.
- 785 1936 Arkansas. Denver Mint. Same number minted as last.
- 786 1936 Arkansas. S. Mint. 9,662 minted. The set of three coins catalogs \$7.50.
- 787 1936 Kentucky or Daniel Boone. Phila. Mint. 12,000 minted. Catalogs \$2.50.
- 788 1936 Kentucky, as last, Denver Mint. Only 5,000 minted.
- 789 1936 Kentucky. S. Mint. 5,000 minted. The pair of D and S Mints catalog \$12.00.
- 790 1936 Texas (again). P. Mint. The real Centennial coin. 8,911 minted.
- 791 1936 Texas, Denver Mint. 9,039 minted.
- 792 1936 Texas, S. Mint. 9,064 minted. The set of three coins catalog \$7.50.
- 793 1936 Oregon Trail. P. Mint. 10,006 minted. Catalogs \$3.00. Seems to me a very low price for a coin of such limited coinage.
- 794 1936 Oregon Trail, San Francisco Mint. 5,006 minted. Scarce. Catalogs \$8.50.
- 795 1936 San Diego Exposition. Struck at Denver. 30,092 minted. Catalogs \$2.50 but worth much more than its catalog price would signify.
- 796 1936 Cleveland, Ohio. Portrait of Moses Cleveland, founder of the city of Cleveland. Reverse, map of the Great Lakes. A handsome coin. 50,000 minted. Catalogs \$2.00.
- 797 1936 Wisconsin Centennial. Badger. 25,015 minted. Catalogs \$2.50.
- 798 1936 Cincinnati Musical Center. Portrait of Stephen Foster. 5,005 minted.
- 799 1936 Cincinnati. As last. Denver Mint. 5,005 minted.
- 800 1936 As last, S. Mint. 5,006 minted. The set of three coins catalog \$25.00. When these coins were first issued, the set sold up to \$60.00. The distribution of this coin, in my opinion was not handled in the proper manner. A goodly number of the sets diverted into the hands of speculators, and after a short time, they apparently got cold feet and threw a large quantity on the market, where at one time the sets were selling for as low as \$15.00. However, I think the surplus has been well absorbed and that the coin is destined to become one of our rare commemoratives.
- 801 1936 Elgin, Illinois, Centennial. 25,000 were minted and sold at \$1.50 each, the proceeds of which was for the purpose of the erection of a Pioneer Memorial. Catalogs now at \$2.50. This issue was well handled.
- 802 1936 York County, Maine, Centennial. Obverse, view of Brown's garrison. Reverse, seal of York County. 25,000 minted. Catalogs \$2.50.

835 1938 Arkansas, Denver Mint.  
836 1938 Arkansas, San Francisco Mint. Only 3,156 of each minted. The set is rare. Catalogs \$22.50, which I think is rather under-priced.  
837 1938 Kentucky or Daniel Boone, Phila. Mint.  
838 1938 Kentucky, as last, Denver Mint.  
839 1938 Kentucky, San Francisco Mint. Only 2,100 of each minted. The set of three catalogs \$65.00 and readily saleable at that price and slightly more.

841 1939 Oregon Trail, Denver Mint.  
842 1939 Oregon Trail, San Francisco Mint. Only 3,000 of each issued. The set catalogs for \$35.00, but retails for more, as these sets are very difficult to obtain.  
843 1939 Arkansas. The last year of issue (Thank the Lord). Type of general issue as first minted in 1935.  
844 1939 Arkansas, Denver Mint.  
845 1939 Arkansas, S. Mint. Only 2,100 of each issued. Of course, the set is rare and catalogs at \$65.00 for the set of three.

## BEAUTIFUL SET of WASHINGTON QUARTER-DOLLARS

Lot No.

- 894 Beautiful collection of the U. S. Quarter-Dollars with portrait of Washington. From 1932 to 1944. All mints issued, Phila., San Francisco and Denver. The 1932 Denver and San Francisco are beautiful uncirculated specimens. Each and every coin in the set, in fact, is strictly uncirculated. A difficult set to form, especially of the scarce mint marks. The set is currently priced from \$80.00 to \$90.00. It is arranged in two holders, each coin in an individual receptacle. Please make your bid on this lot by the piece. Bids for the lot will not be considered. 36 pcs.
- 895 Duplicate Washington Quarters. 1936, '38, '44, P, D and S Mint; 1945, P, D and S Mint. The 1938 is very fine, all others uncirculated. 8 pcs.

## U. S. TWENTY-CENT PIECES

These interesting coins were minted from 1875 to 1878 inclusive. However, they were minted for general circulation in 1875 and 1876 only. In 1877 and 1878 they were struck in proofs only on orders from collectors. In 1875 they were also coined at Carson City and San Francisco Mints, and in 1876, besides the Philadelphia Mint, a small number were coined at the Carson City Mint. This coin, however, is of extreme rarity. A specimen in my Sale of the great Atwater Collection, in June of 1946, brought \$1,625.00.

- 896 1875 Brilliant proof. Very scarce in proof. Catalogs \$15.00, an advance of 20% over last year's price.
- 897 1875 Another as last. Proof, but not in full brilliancy. A tiny purple spot on left reverse, but still a very desirable coin.
- 898 1875 S. Mint. Uncirculated, frosty mint surface. Catalogs \$5.00.
- 899 1876 Uncirculated with frosty mint surface. Catalogs \$10.00.
- 900 1877 Brilliant proof. Rare. Only 510 specimens minted in all. In great demand. Catalogs at \$40.00, an increase of \$10.00 over the 1945 catalog price. And it wasn't so very long ago when this coin was selling at \$5.00 to \$7.50. However, in my Sale of the great Atwater Collection (and this is the identical piece from that great Sale), the coin brought \$52.50.
- 901 1877 Another as last. Brilliant proof.
- 902 1878 Brilliant proof. A gem. Only 600 minted. Catalogs at \$30.00. Last year, when this coin cataloged at \$27.50, it sold for \$31.50. I prophesy that this is another \$50.00 coin in the very near future.
- 903 1887 Another as last. Brilliant proof, partly wire edge.

## UNITED STATES DIMES

- 904 1829 Medium 10 C. While the Standard Catalog lists small and large 10 C, there is a third variety of a large 10 C. The specimen here offered was originally purchased by Mr. Geiss as the large variety, but I know of a larger 10 C variety so I class this as the medium 10 C. Uncirculated. Very scarce. (Cost \$5.00.)
- 905 1837 Liberty seated; 1843, '45 P and O Mint; '47. Fine and very fine. 5 pcs.

**BEAUTIFUL COLLECTION of U. S. FIVE-CENT NICKELS**  
**SHIELD TYPE NICKELS, 1866 to 1883**

Coined at the Philadelphia Mint only.

Lot No.

- 948 1866 Brilliant proof. Raised borders, with wire edge. Rare condition and in great demand. Catalogs at \$25.00 and readily retails for that amount. The 5c nickel is one of the most popular series of our coinage, and their values have advanced tremendously in the past few years, due mainly to the tremendous increase in the number of collectors. This same nickel was cataloged at \$10.00 in 1941, and now it catalogs at \$25.00 and is even difficult to obtain at this price.
- 949 1867 Same type as the 1866. **Rays between stars. Brilliant proof.** This is not a bright uncirculated or so-called proof, but is a real honest-to-goodness proof with wire edge. In this condition it is extremely rare, far more so than even its present catalog price of \$100.00. Mr. Geiss paid \$80.00 for this coin when it cataloged for much less. Collectors realize the value of this coin and have done so for a number of years. This coin always brought a great deal more than its catalog value. Only a few years ago the coin cataloged at \$50.00 and a couple of years prior to then, cataloged for only \$15.00. If I had one in stock, my price would be not less than \$150.00.
- 950 1867 Second type, without rays. Brilliant proof. Catalogs \$10.00.
- 951 1867 Another as last and just about as choice. Brilliant proof.
- 952 1868 Brilliant proof, wire edge. Catalogs \$10.00.
- 953 1869 Brilliant proof with wire edge. Catalogs \$10.00.
- 954 1870 Brilliant proof. Very scarce. Catalogs \$10.00.
- 955 **1871** Brilliant proof. Very rare. Catalogs \$75.00. An advance of \$15.00 over last year's price. A coin that is destined to become a \$100.00 nickel.
- 956 1872 Brilliant proof. Catalogs \$8.50.
- 957 1873 Brilliant proof. Catalogs \$7.50.
- 958 1874 Brilliant proof. Very scarce. Catalogs \$15.00.
- 959 1875 Brilliant proof. Rare. Catalogs \$30.00. Another date which has greatly enhanced in value.
- 960 1876 Brilliant proof. Catalogs \$10.00.
- 961 **1877** The rarest date of this type nickel. Perfect brilliant proof. Rare and in great demand. It hasn't been so very long when this coin was selling at \$7.50. Last year it cataloged for \$70.00 and was bringing above catalog. This year the catalog price is \$85.00. I feel confident that this coin is destined to become a \$100.00 nickel in the near future.
- 962 1878 Brilliant proof. Quite rare. Catalogs \$25.00.
- 963 1879 Brilliant proof. Catalogs \$8.50.
- 964 1880 Brilliant proof. Very scarce. Steadily advancing in value. Now catalogs \$12.50.

## BUFFALO TYPE FIVE CENT-NICKELS

### First coined in 1913

Lot No.

- 1001 1913 First year of issue and first type. Proof. It is well to mention here that proofs of the Buffalo nickels were struck from 1913 to 1916, but they are not the brilliant proofs; they are more of a frosty mint surface, not much different than the uncirculated specimens only that the proofs are easily determined by their broad borders rather than the sharp edges as on uncirculated specimens. Only a limited number of proofs struck. Catalogs \$6.00.
- 1002 1913 First type, Denver Mint. Uncirculated. Scarce. Catalogs \$6.00.

Lot No.

- 1121 1873 Another as last. Purchased by Mr. Geiss as proof. While the coin was struck as a proof, it is not brilliant, and has a very light semi-brilliant surface. It appears to have been cleaned a long time ago. A most acceptable specimen of our rarest 2c piece. The values of these coins have been advancing steadily for the past few years, and have more than doubled in the past five years. The prices may seem a little high now, but collectors will have the same experience in a few years hence, when the present prices will seem just as low as the prices of four or five years ago seem today.

### UNITED STATES SMALL CENTS

#### One of Our Most Popular Series of Coins

Coinage began in 1856. And from that year until 1908 they were coined at the Philadelphia Mint only. In 1908 coinage began at the Branch Mints at the San Francisco Mint. In 1911 coinage began at the Denver Mint.

#### The Flying Eagle Cents of 1856, 1857 and 1858

- 1122 1856 The very rare and greatly in demand Flying Eagle Cent. Beautiful iridescent purple proof. The value of this coin has advanced tremendously in the past few years. In 1939 this coin cataloged at \$45.00. In 1941 it cataloged at \$60.00. Last year, 1946, the catalog price was \$135.00, and in the present catalog, it is \$175.00. And it hasn't been so very long ago, only about eight or nine years ago, when this coin was selling at \$20.00. Its advance in value is easily understandable. There are at least one hundred or more collectors where there was one ten years ago. The retail price for this coin in proof condition is \$200.00. With the limited number minted, (only 1,000 said to have been coined), and with the thousands of collectors desiring the coin, its steady increase in value is easily understandable, especially in proof condition.
- 1123 1856 Another as last. Originally purchased as a proof. It has considerable proof surface and does not show any wear. Copper-nickel. A coin that usually brings from \$150.00 to \$165.00.
- 1124 1857 Perfect brilliant proof gem with wire edge. Very rare so choice. This coin also has advanced in value since 1941 from \$15.00 to \$45.00.
- 1125 1857 Duplicate, as last. Brilliant proof, partly wire edge.
- 1126 1858 Large letters. Perfect brilliant proof gem. Very rare so choice. Catalogs \$50.00. The 1857 and '58 in proof condition are, in my opinion, just about as rare as the 1856.
- 1127 1858 Large letters. Brilliant proof with the exception that it is not fully brilliant on the reverse. It has an imperceptible nick on obverse field, hardly noticeable. Wire edge.
- 1128 1858 Small letters. Uncirculated. Very scarce. Full mint luster. Catalogs \$10.00.

## UNITED STATES SMALL CENTS

- 1129 1858 Another as last, small letters. Uncirculated, frosty mint surface.

#### The Excessively Rare 1864 Bronze Cent with L in PROOF

##### Lot No. 1142

1864 Bronze Cent with L on ribbon. (The L is for Longacre, the designer). **Brilliant proof.** Excessively rare. Of all the celebrated and valuable collections of United States which have passed through my hands in the past twenty years, I do not recall a single specimen of this coin being included in any of them. Until a few years ago, this coin in proof condition, was not even listed in the Standard Catalog. I know of only three or four specimens. I consider it by far the rarest of all small cents. Mr. Geiss paid \$225.00. This seems a high price but considering its rarity, it would not surprise me to see this coin far exceed this price in the near future.

- 1143 1864 The rare variety with L on ribbon. Uncirculated; slightest cabinet friction on highest portions, but with almost full mint red. Catalogs now at \$30.00.  
1144 1865 Brilliant olive proof. Catalogs \$12.50.  
1145 1866 Brilliant iridescent proof. Catalogs \$15.00.  
1146 1867 Brilliant proof. Just about as perfect as the day it was minted. Catalogs \$15.00.

## SETS OF SMALL CENTS; RARE PROOF SETS

### **COMPLETE SET of SMALL CENTS, 1856 to 1945**

Lot No.

- 1264 Complete set of Small Cents from 1856 to 1945. All dates and all mints. The 1856 was originally purchased by Mr. Geiss as a proof, but the coin is extremely fine, near uncirculated. The 1864 L is about uncirculated with mint red and olive. The 1877 is uncirculated with iridescent surface. The 1908 and 1909 S are uncirculated with olive surface and some mint red. The Lincoln Cents are all uncirculated including all the scarce and rare mints. The set as a whole is uncirculated with only a very few exceptions which are near uncirculated but which were purchased as uncirculated. The set may be called a nicely matched set, worthy of the ownership of any collector. The collection is housed in a Standard album in six holders. A collection which is very difficult and expensive to form today. A conservative estimate of the catalog value of this fine collection is \$675.00. This set will be sold as a lot, so please make your bid accordingly.

### **RARE and UNUSUAL UNITED STATES PROOF SETS**

While all United States coins in proof are scarce and mostly are rare, but when in complete sets they are even more rare and, as stated in the Standard Catalog, perfect proof coins usually command a higher price than listed in the Standard Catalog, especially so in sets.

All proof sets are sold by the set and not by the piece, therefore please make your bids on the following proof sets at so much per lot. These sets are in great demand and are steadily advancing in value. They will prove not only a gratifying source of possession, but I am sure, a profitable investment as well. In these days, when choice coins are in such great demand, this is an unusual offering and opportunity to acquire some really scarce and rare sets of our most desirable coins.

#### **Very Rare Proof Set of 1856**

- 1265 1856 Complete silver proof set. 3¢, Half-Dime, Dime, Quarter and Half-Dollar and Dollar. All brilliant proofs. The set is attractively arranged or enclosed in a beautiful holder. The record for this set is \$205.50. If purchased separately it would undoubtedly cost more. Very few complete sets known. Rare and valuable. Should bring more than catalog price, as is true with all of the following proof sets.

#### **Rare Proof Set of 1857**

- 1266 1857 Complete set of silver brilliant proof coins. 3¢, Half-Dime, Dime, Quarter-Dollar, Half-Dollar, and Silver Dollar. All brilliant proofs. Very rare. The set catalogs at \$155.00.

#### **Extremely Rare Proof Set of 1858**

- 1267 **1858** Magnificent complete silver proof set of this very rare date, 1858. 3¢, Half-Dime, Dime, Quarter-Dollar, Half-Dollar and Dollar. The Dollar has a pin-point nick or die depression at eagle's beak. This is hardly noticeable and does not affect the appearance or value in any way. Proof silver coins of this date are rare, but doubly so when in a complete set. Record for the coins separately, \$260.00. Personally I think the set as a whole is worth considerably more.

## UNITED STATES PROOF SETS

---

Lot No.

- 1268 1859 Complete proof set. 1¢, 3¢, Half-Dime, Dime, Quarter-Dollar, Half-Dollar, and Dollar. Iridescent purple proofs. Very rare as a set. Catalogs \$88.50.

### Unusually Attractive Proof Set of 1876

- 1269 **1876** Three-Cents and Five-Cents Nickel, Dime, Twenty-Cents, Quarter-Dollar, Half-Dollar, Trade Dollar, and the so-called Centennial Dollar (which brought over \$50.00 in the Atwater Sale). This set is contained in a beautiful pale blue plush and silk and real leather case. Handsomely made. Undoubtedly made in 1876. The case alone could hardly be duplicated today for from \$10.00 to \$15.00. Catalog and record value over \$100.00.
- 1270 **1877** Cent, Three-Cents and Five Cents Nickel, Dime, Quarter-Dollar, Half-Dollar, and Trade Dollar. The minor coins in this set are the rarest of the series. It is not often that even single specimens of them are offered. As a set it is extremely rare. The catalog value is over \$250.00. I'm not a prophet, but I do not hesitate to prophesy that here is a set which will reach the \$500.00 mark in the not very distant future.
- 1271 **1878** Another rare set. 1¢, 3¢, 5¢, 10¢, **20¢**, Quarter and Half-Dollar. Standard Dollars, both varieties, with seven and eight feathers in eagle's tail, and Trade Dollar. Ten beautiful proofs. Catalogs for \$177.00 but certainly is worth more as a beautiful set.
- 1272 1879 1¢, 3¢, 5¢, Dime, Quarter-Dollar, Half-Dollar, Standard Dollar, and Trade Dollar. A beautiful set. Catalogs separately for \$48.50.
- 1273 1880 1¢, 3¢, 5¢, Dime, Quarter and Half-Dollar, Standard Dollar, Trade Dollar. This set is mounted in a beautiful card. A magnificent set, and as such, rare. Catalog value \$54.00, but practically all of the coins of this year bring more than catalog listing.
- 1274 1882 Complete set. 1¢, 3¢, 5¢, Dime, Quarter-Dollar, Half-Dollar, Standard Dollar, and Trade Dollar. Beautiful set. Catalogs \$44.00.
- 1275 1884 Complete proof set. 1¢, 3¢, 5¢, Dime, Quarter-Dollar, Half-Dollar, and Standard Dollar. Catalogs separately, \$37.50, but certainly worth more as a set.
- 1276 **1885** Complete set of this rare date. 1¢, 3¢, 5¢, Dime, Quarter-Dollar, Half-Dollar, and Standard Dollar. Mounted in attractive black card with cellophane protective slides. The set catalogs for \$67.50. Rare and in much demand.
- 1277 **1886** Complete brilliant proof set. 1¢, 3¢, 5¢, Dime, Quarter-Dollar, Half-Dollar, and Dollar. Beautifully mounted in special card. Set catalogs separately for \$48.00.
- 1278 1887 1¢, 3¢, nickel, the rare variety with over 1886; 5¢, 10¢, Quarter-Dollar, Half-Dollar, and Dollar. Total of seven beautiful proofs. Catalogs separately, \$57.50.
- 1279 1892 Complete proof set. 1¢, 5¢, 10¢, Quarter-Dollar, Half-Dollar, and Dollar. Catalogs \$35.50.

## UNITED STATES PROOF SETS

Lot No.

- 1280 1894 1¢, 5¢, 10¢, Quarter-Dollar, Half-Dollar, and Dollar. Scarce set of six pieces. Catalogs \$35.00.
- 1281 1900 Complete set. 1¢, 5¢, 10¢, Quarter-Dollar, Half-Dollar, and Dollar. The cent is slightly iridescent olive, the others are brilliant. Catalogs \$32.50.
- 1282 1901 Brilliant proof set, 1¢, 5¢, 10¢, 25¢, 50¢, and \$1.00. Catalogs \$32.50.
- 1283 1904 1¢, 5¢, 10¢, Quarter-Dollar, Half-Dollar, and Dollar (rare). Beautiful brilliant proof set. Worth, in my opinion, considerably more than its catalog price of \$41.00.
- 1284 1905 1¢, 5¢, Dime, Quarter-Dollar, and Half-Dollar. (The coinage of Dollars was discontinued in 1904.) Very scarce, as are all of the proof sets from 1905 to 1915. There was a lull in collecting proofs in these years, and apparently a small number of collectors ordered proof sets. They have more than doubled in value in the past few years and I feel confident that there is a very bright future in store for them. Catalogs \$23.50.
- 1285 1906 Complete brilliant set consisting of 1¢, 5¢, Dime, Quarter-Dollar, and Half Dollar. Catalogs \$26.00.
- 1286 1907 Brilliant proofs of 1¢, 5¢, Dime, Quarter-Dollar and Dollar. Catalogs \$26.00.

- 1405 **1855** This rarity was purchased by Mr. Geiss as uncirculated. I believe the coin is just that. It shows just the slightest touch of cabinet friction. The figure 8, as in all of the gold dollars of this Mint, is not as bold as the other figures. Light die breaks on reverse. This specimen is from the Bell Sale at \$217.50. It is one of the rarest of our Branch Mint Gold Dollars.
- 1406 **1855** Another as last and in just about the same state of preservation. The head of Liberty shows slightly more wear. I do not recall ever having two specimens of this rare date in one Sale. Just as valuable as last.

### The Rarest Date Gold Dollar

#### Lot No. 1366

**1875** The rarest date Gold Dollar. **Perfect brilliant proof.** In great demand and, of course, of extreme rarity, as only 420 specimens were minted in all. I doubt if more than ten or twenty per cent at most of the number minted are now in existence, especially in good condition. Steadily advancing in value. Record, \$335.00. A specimen in my Atwater Sale brought \$315.00. The coin has more than doubled in value in the past three years.

## DAHLONEGA AND NEW ORLEANS MINT GOLD DOLLARS

- 1408 **1857** Extremely fine, sharp, with unusually strong impression obverse. From the Clarke Collection. Extremely rare. Record up to \$100.00.
- 1409 **1858** Uncirculated, frosty mint surface. Just the slightest touch of cabinet friction on obverse. Very rare so choice. A similar specimen in my Atwater Sale brought \$67.50.
- 1410 **1859** Practically uncirculated, although the figure 5 is not quite as bold as the other figures in date. Very rare. Record \$60.00.
- 1411 **1860** In my humble opinion this is the rarest Gold Dollar of the series, although the 1861 is considered more rare by some. This specimen is a beautiful almost uncirculated coin. A very tiny, hardly noticeable, nick on upper right reverse edge. As usual, the UN in UNITED is not as bold as the other letters. This is characteristic of this particular Gold Dollar. With nearly full mint luster. This rarity has a record of \$300.00.
- 1412 **1861** Extremely fine with full strong date. The first two letters of UNITED, especially the letter U is not as bold. Most of legend is double-struck. This rare specimen is from the T. James Clarke Collection, a gentleman and a great collector who purchased only the best available coins. When Mr. Heaton wrote his Treatise on the Branch Mint coins, only two specimens were then known to exist. Latest record \$345.00.

### The Rarest Gold Dollar of the San Francisco Mint

- 1431 **1870** San Francisco Mint Gold Dollar. Brilliant semi-proof. Sharp impression. A gem of one of our very rarest Gold Dollars. Record \$230.00. The only time these rarities are available is when important collections such as this come on the market. The specimens offered in the past few years are all the same coins and no new specimens have been discovered. The 1870 S Gold Dollar has always been considered a rarity, and rightly so. The specimen here offered is as beautiful a specimen as exists.

## U. S. COMMEMORATIVE GOLD DOLLARS

These beautiful little gold coins were issued to commemorate important events in our country's history. While they were all originally issued at nominal prices, they have advanced tremendously in value. The demand for them is greater than ever. While silver commemorative coins may and may not be issued again, certainly it will be many moons before commemorative gold coins are minted, if ever.

- 1600 1859 Extremely fine. Duplicate.
- 1601 1860 **Magnificent perfect brilliant proof gem.** Struck in light yellow gold. Undoubtedly an early impression of the die. From the Clarke Collection. Catalogs at \$70.00, but this gem should exceed the catalog price.
- 1602 1860 Originally purchased by Mr. Geiss as a proof. It has all the appearances of a proof, but on a close examination I find considerable hair lines and evidence of the coin having been polished or lacquered, therefore, I cannot consistently catalog it as a proof. But it is a beautiful coin just the same.
- 1603 1860 Duplicate. Brilliant uncirculated. A beautiful coin. Limited coinage. Record \$25.00.
- 1604 1860 San Francisco Mint. Just a shade from uncirculated, with considerable mint luster. Record \$26.00 for only a very fine specimen.

## U. S. THREE-DOLLAR GOLD, 1863-1874

Lot No.

- 1608 1863 Fine to very fine. Catalogs at \$20.00 in very fine.
- 1609 1864 **Perfect brilliant proof** with wire edge. A gem. A very tiny spot on lower right obverse edge. This is hardly noticeable and does not affect the appearance or value of the coin. Catalogs at \$70.00.
- 1610 1865 Very rare date. Only 1,165 struck. Very fine with some frosty mint surface. A similar specimen in my Atwater Sale brought \$53.00.
- 1611 1866 Uncirculated with brilliant semi-proof surface. Just the very slightest evidence of cabinet friction, hardly worth mentioning. An inferior specimen in my Atwater Sale brought \$30.00.
- 1612 1866 Duplicate. Very fine but lightly nicked. Catalogs at \$20.00 in very fine.
- 1613 1867 Brilliant semi-proof; nearly equal to a brilliant proof. Partly wire edge. Rare. Catalogs at \$50.00 in proof. It has a record of over \$60.00.
- 1614 1867 Duplicate. Nearly uncirculated with mint luster. Catalogs \$25.00 in uncirculated.
- 1615 1868 **Perfect brilliant proof.** Wire edge. A real gem. Catalogs \$60.00 but worth more, as a semi-proof brought \$52.50 in my last Sale.
- 1616 1868 Extremely fine, nearly uncirculated. Has the appearance of having been cleaned, but is a desirable coin and a scarce one.
- 1617 1869 Just about uncirculated, with some mint luster. Very Scarce. Only 2,525 minted. Catalogs \$30.00 uncirculated.
- 1618 1869 Duplicate. Just in about the same condition as last.
- 1619 1870 **Perfect brilliant proof;** sharp wire edge. Catalogs \$60.00 but in this gem condition should bring more.
- 1620 1871 **Brilliant proof.** Struck in light gold. Record \$75.00.
- 1621 1871 Duplicate. About uncirculated with brilliant surface, but it has very likely been cleaned. Very scarce date. Only 1,320 minted.
- 1622 1872 Uncirculated with slight cabinet friction. Rare date. 2,030 minted. Record for a slightly better specimen, \$65.00.

- 1623 **1873** Uncirculated with some semi-proof surface. Unusually bold impression for this rarity. The mint reports that only 25 specimens were struck. This is undoubtedly incorrect. But I feel certain that less than 100 specimens were struck. A specimen not quite as choice brought \$127.50 in my last Sale. It is a much desired coin.
- 1624 1874 **Proof.** One of the least rare dates of the series, but very rare in proof. Light yellow gold. Record \$75.00.
- 1625 1874 About uncirculated. Catalogs \$15.00.

# UNITED STATES \$3.00 GOLD, 1874-1878

Lot No.

- 1626 1874 Duplicates. Extremely fine. 2 pcs.  
 1627 1874 Duplicates. Fine to very fine. 3 pcs.  
 1628 1874 Duplicate. Perfect uncirculated with semi-proof surface on obverse.

- 1629 **1876** The second rarest date \$3.00 Gold Piece of the Philadelphia Mint. Next in rarity to the 1875, which brought a record price of \$3,050.00 in my Atwater Sale. According to the mint report only 45 specimens of this coin were minted. We have every reason to believe that this report is correct. The specimen here offered is a **beautiful glittering gem proof with wire edge**. It has a tiny pin-point planchet nick to left of the figure 3 on reverse. This does not affect the appearance or the value of this beautiful and rare gem. In 1944 a specimen in my Olsen Sale brought \$460.00. A similar specimen in my Sale of the Atwater Collection in June of 1946, where I expressed my opinion that this coin should pass the \$500.00 mark, it brought \$580.00. I confidently believe that this rarity is destined to join the elite class of \$1,000.00 coins in the near future. It should certainly exceed its previous record of \$580.00.

- 1630 **1877 Proof.** Raised borders and partly wire edge. The obverse field shows slight cabinet friction. While it cannot be classed as a gem proof, but this rare \$3.00 gold coin is seldom found as choice. Although the Mint record reports that 1,488 specimens were struck, but I think this is wrong, as it comes up far less often than the 1873 and I doubt if more than 100 specimens are known. This coin cost Mr. Geiss \$165.00 several years ago. It has a record for a brilliant proof of \$275.00.
- 1631 **1878 Perfect brilliant proof.** Sharp with complete high wire edge. This date of the \$3.00 gold piece is probably the least rare of the series. BUT in proof condition, especially in brilliant proof, it is just about as rare as ANY \$3.00 gold piece! From the number of specimens offered in the past more than forty years, I have every reason to believe that there are less proofs of the 1878 \$3.00 gold piece than there are of the 1873, 1876 and 1877. The only reason that it does not command the high prices of the other rarities is that inferior specimens of this date are available. Record \$120.00. But in actual rarity, it is worth several times this amount. The Atwater Collection did not have a specimen.

Lot No.

- 1632 1878 Duplicate, and believe it or not, **another brilliant proof** and almost as beautiful a gem as last. This is the first time in all of my long experience that I have ever had two brilliant proofs of the 1878 \$3.00 gold piece at one time. I have only handled two others in all of my forty-six years of numismatic experience.
- 1633 1878 Duplicate. Uncirculated with full mint luster. Getting very scarce. Record \$21.00.
- 1634 1878 Nearly uncirculated. Duplicates. 2 pcs.
- 1635 1878 Extremely fine to near uncirculated. Duplicates. 3 pcs.
- 1636 1879 Nearly uncirculated with semi-proof surface. Scarce date. Catalogs at \$25.00 in uncirculated.
- 1637 1880 **Perfect brilliant proof** with wire edge. Only 1,036 minted. Catalogs at \$50.00.
- 1638 1881 **Perfect brilliant proof;** sharp with wire edge. A gem. Very rare. Only 550 minted. Record \$130.00.
- 1639 1881 Duplicate. Very fine. Rare. Catalogs at \$30.00.
- 1640 1882 **Perfect brilliant proof.** Sharp with wire edge. Limited coinage. Record \$50.00. This specimen is from the Belden Roach Collection.
- 1641 1883 **Perfect brilliant proof** gem. Wire edge. Rare. Only 940 specimens minted. Record \$50.00 made two years ago. Worth more today. From the Roach Collection, the Sale of which I conducted in 1944.
- 1642 1884 **Perfect brilliant proof.** Wire edge. Only 1,106 minted. A semi-proof in my Atwater Sale brought \$53.00. Record for a proof, \$60.00. Worth more today.
- 1643 1885 **Perfect brilliant proof** with wire edge. Rare. Only 910 minted. Record \$70.00.
- 1644 1886 **Perfect brilliant proof.** Wire edge. Only 1,142 minted. Only a semi-proof in my last Sale brought \$47.50.
- 1645 1887 **Brilliant proof.** Wire edge. Just the very tiniest, hardly noticeable, nick on the upper obverse wire edge. Record \$38.00. From the Clarke Collection. (Past President of the American Numismatic Association.)
- 1646 1887 Duplicate. Brilliant uncirculated with raised borders. An imperceptible pinpoint nick on upper left obverse. Catalogs \$20.00 but retails for more in this beautiful condition.
- 1647 1888 **Perfect brilliant proof.** Struck in light yellow gold. Record \$40.00.
- 1648 1888 Duplicate. Very fine. Catalogs \$15.00.
- 1649 1889 Last year of issue. Struck in yellow gold. **Perfect brilliant proof.** Scarce and in demand. Record \$40.00.

### UNITED STATES FOUR-DOLLAR GOLD PIECE

Lot No.

- 1650 1879 **\$4.00 Gold.** Head of Liberty with flowing hair. Reverse, a large five-pointed star with inscription as per illustration above. This rather curious denomination gold coin was minted only in 1879 and 1880. Only about 500 specimens were minted in 1879. They were distributed to the then members of Congress. Owing to the odd denomination, this coin is in great demand not only by collectors but by non-collectors as well. This coin has enhanced in value very rapidly. It hasn't been more than five years when it was available at about \$150.00. The last specimen I offered was the one in the Atwater Sale, last June, where a similar specimen brought \$550.00. I had more bids on that particular coin than on any gold coin in the entire Sale. I have noticed it priced publicly and privately up to \$700.00.

### UNITED STATES FIVE-DOLLAR GOLD PIECES

Coinage began in 1795 and discontinued in 1929. The following are all of the Philadelphia Mint unless otherwise described.

An imperceptible light nick on obverse edge directly below 17 of date. Fine to very fine. Very scarce and in much demand. Record over \$125.00 for equal specimens.
- 1652 1796 over '95, as all are. Same type as the 1795. Extremely fine, nearly uncirculated; just the highest portions show slight cabinet friction. Rare date in choice condition. Record up to \$180.00.
- 1653 1798 Obverse similar to last but with thirteen stars. Reverse, heraldic eagle. Variety with top of 8 touching bust. Reverse, two small die breaks on upper edge. Uncirculated, frosty mint surface. Very scarce so choice. Record \$75.00.

### The Excessively Rare Half-Eagle of 1929

#### Lot No. 1799

**1929 U. S. \$5.00 Gold.** Last year in which Half-Eagles were minted. Of greatest rarity. While this Half-Eagle was always considered a scarce item, it was only until just three or four years ago when its real rarity was realized. Mr. Geiss purchased this coin of me in 1943 for \$150.00, when this coin was then listed in the Standard Catalog at \$25.00. In March of 1944 a specimen appeared at auction where its estimated value was given as \$75.00, but it brought no less than \$225.00. In December of the same year, 1944, another specimen appeared at auction and it brought \$375.00, and the last specimen which appeared at auction was in January of 1946, where a similar specimen brought no less than \$475.00. The specimen here is just about uncirculated. It just shows the slightest evidence of cabinet friction. With nice even mint surface. I bespeak for this coin a great future in value.

### The Extremely Rare 1909 Half-Eagle of the New Orleans Mint

Lot No. 1820

**1909 \$5.00 Gold, O Mint.** Uncirculated. Extremely rare and valuable. Here is another rare Half-Eagle which was a "sleeper" for some time. In 1942, in the Standard Catalog, this coin was listed at \$20.00. And as late as the catalog of 1944 it was listed at \$50.00, but in a Sale held in 1944, the specimen here offered brought no less than \$200.00. And the second specimen offered appeared in the early part of 1946, where a similar specimen brought \$275.00. I feel certain that this is another rare Half-Eagle destined to become another \$500.00 coin in the not distant future.

## UNITED STATES TEN-DOLLAR GOLD PIECES

Coinage began in 1795. And until 1841 they were struck at Philadelphia Mint only.

### PHILADELPHIA MINT EAGLES

Lot No.

- 1855 1795 First year of issue. Draped bust of Liberty. Fifteen stars. Reverse, small eagle on olive branch. The edge is milled. Top of figure 5 touches bust, and star on left just barely touches curl. Very fine. Rare and in much demand. Recent record \$215.00.
- 1856 1796 Same type as the 1795, but with sixteen stars. Beautiful specimen. Uncirculated with semi-proof surface; nearly equal to a brilliant proof. Very light hair lines, not affecting the appearance or beauty of the coin. It is unusually sharp struck. A gem specimen of this rarity. Have noticed it priced up to \$300.00. Two tiny die flakes, one on chin and the other in field to left of bust. Rare and valuable.
- 1857 1797 The rare type as of 1795 and 1796, small eagle. With the exception of four stars to right and twelve to left of bust. Very fine to extremely fine, but the field has been re-touched, apparently some scratches having been removed. A very rare coin with recent record of \$377.50.
- 1858 1797 Second type. Obverse as last, but the stars are much smaller, with six stars on right and ten stars on left. Reverse, heraldic eagle. Extremely fine. Catalogs at \$100.00. Recent record \$110.00.

### The Extremely Rare Pair of 1798 Eagles

- 1859 **1798 over '97**, as all are. Type as last, but stars are larger, with four stars to right of bust and nine to left. Strictly very fine. Well centered and struck. An imperceptible nick on upper right edge of reverse. Catalogs at \$350.00, but has a higher auction record. And have noticed it priced up to \$500.00. Only available when great collections come on the market.

U. S. TEN DOLLAR GOLD, 1798-1839

Lot No.

- 1860 **1798 over '97.** The second and rarest type of this extremely rare \$10.00 Gold Piece. Six stars to right and seven to left. A perfectly centered and well struck specimen. A tiny round dent which appears to me to be a die defect but which does not affect the appearance or value of the coin. One of the very rarest of all U. S. \$10.00 Gold Pieces with an auction record of over \$1,100.00.
- 1861 1799 Same type as 1798, but with five stars to right and eight stars to left of bust. Variety with large stars. Extremely fine; free from any nicks or dents. Not a rare date, but in much demand and finally being recognized as the scarce coin it is. Record over \$100.00.
- 1862 1799 Duplicate as last, same variety. Strictly very fine.
- 1863 1799 Smaller stars. Extremely fine; sharp, with mint luster, but the obverse shows slight nicks. Tiny die breaks on upper left edge. Very scarce variety.
- 1864 1800 About uncirculated. The obverse is just like a proof, but it appears to me that the coin has been somewhat polished. The reverse is a natural semi-proof surface, not having been re-touched. A beautiful coin just the same with record well over \$100.00.
- 1865 1800 Duplicate. Die break connecting most of LIBERTY. Strictly fine to very fine. Very scarce.
- 1866 1801 Unusually large stars which is characteristic of this particular date. Extremely fine; free from any nicks or dents. Record over \$100.00.
- 1867 1803 (None minted in 1802.) Just a shade from uncirculated. Tiny, hardly visible, light nick on obverse. Very scarce. Record \$100.00.
- 1868 **1804** Extremely fine with considerable mint luster. Variety with die break between E and R in Liberty. Very rare and valuable. A similar specimen in my Sale of the Atwater Collection brought \$255.00. Have observed it priced at \$300.00.
- 1869 **1804** Duplicate. The obverse has light die file marks, but the coin is strictly very fine with bold impression. Worth just about as much as the last lot.
- 1870 1838 (No \$10.00 Gold Pieces minted from 1805 to 1837 inclusive.) New and entirely different design. Liberty head to left, encircled by stars and date. Strictly very fine. Very scarce. Catalogs at \$60.00.
- 1871 1839 Variety with large letters on reverse. Extremely fine, sharp. Very scarce. An uncirculated specimen in my last Sale brought \$85.00.

This coin in brilliant proof condition is of extreme rarity. It has an auction record of \$275.00 and I have seen it priced by another dealer at \$500.00. This later price may and may not be high today, but in actual rarity, the coin is really worth it.
- 1891 1864 Very fine, but the coin has been polished and shows tiny nicks. Limited coinage, 3,580 minted. Catalogs at \$40.00 in very fine.
- 1892 1865 Strictly fine to very fine. Scarce date.

- 1894 1867 Perfect brilliant proof, sharp. Partly wire edge. This identical specimen is from the celebrated Atwater Collection at \$165.00. Since then have observed a similar specimen being quoted at \$250.00.

- 2068 1915 Nearly uncirculated, but minute scratches.

Lot No.

- 2079 **1931** Uncirculated with full mint luster. Just the slightest evidence of a few light hardly noticeable nicks due from having been handled with other coins. These do not affect the appearance or value of the coin. Very rare, far more so than is generally known. Although a goodly number were struck, but I have some very authentic information that an infinitesimal number were put out to collectors or for circulation. Record \$220.00. This record in my opinion is very much in its infancy.
- 2080 **1932** Uncirculated with full mint luster. Two short nicks on left obverse, apparently where another coin dropped on it, but a desirable coin and worthy of a home in any collection. Even more rare than the 1931. Very rare and valuable. Record over \$200.00 and sure to advance.

- 2115 1890 Very fine.
- 2116 1891 Nearly uncirculated with mint luster.

- 2134 1907 Last year of the Liberty head type. Very fine.
- 2135 1909 About uncirculated. Very scarce,—far more so than its catalog price of \$65.00 would signify.
- 2136 1910 Practically uncirculated.
- 2137 1911 Extremely fine with some luster.
- 2138 1914 Very fine.
- 2139 1915 Extremely fine with some mint luster.
- 2140 1916 Uncirculated; just the slightest touch of cabinet friction.
- 2141 **1920** A perfect uncirculated specimen of a real rarity. For some reason it was overlooked by the publishers of the Standard Catalog and only listed in 1946 at \$65.00, although a specimen in 1944 brought \$160.00, and another specimen, offered in January, 1946, brought \$250.00. It is a real rarity and certainly worthy of its highest auction record, and then some.
- 2142 **1922** Another "unknown rarity." This specimen is extremely fine. It shows slight cabinet friction on the highest portions of obverse, and tiny nicks on reverse edge, not affecting the appearance of the coin. An uncirculated specimen sold in 1944 at auction and brought \$340.00, and another specimen sold in January, 1946; also uncirculated, brought \$420.00. While this coin is not uncirculated, but it is worthy of a home in any collection and should bring a price consistent with its highest record.

Lot No.

- 2143 **1925** Strictly fine to very fine. The obverse can be called strictly fine, and the reverse, certainly very fine if not extremely fine. Another real rarity with auction record of \$230.00. Have observed a specimen in uncirculated condition quoted at \$400.00.

**Denver Mint Twenty-Dollar Gold Pieces**

- 2144 1906 First year of issue. Extremely fine with frosty mint surface. Scarce.

- 2159 **1924** Uncirculated with full mint luster. Perfect uncirculated specimen. Very rare; far more so than is generally recognized. Auction record \$220.00. This specimen is from the Clarke Collection at \$200.00 some three years ago. Worth much more today. Have observed it being priced at private sale at \$350.00.

### UNITED STATES GOLD COMMEMORATIVE COINS COMPLETE SETS of the RARE PANAMA-PACIFIC COINS

Lot No.

- 2161 1915 Complete set of the Panama-Pacific coins. This set consists of the two Fifty-Dollar Gold Pieces, round and octagonal, \$2.50 and gold dollar, and the Panama-Pacific Half-Dollar in silver. The beautiful set of coins is mounted in a dark plush holder with receptacles for each coin, and below each coin is a full description of the design printed in gold on a lighter shade of purple cards. The whole is framed under glass in a hammered copper frame with easel. All the coins are, of course, in perfect uncirculated mint condition. Only a very few sets were issued in this manner and are now extremely rare and valuable and in great demand. These sets retail at about \$1,500.00 per set. They have more than doubled in value in the past few years and I am sure these sets are destined to become a \$2,000.00 item or even more in the not distant future. Please make your bid for this and the following sets by the lot or set and not by the piece.
- 2162 1915 Complete Panama-Pacific set in hammered copper frame, just as the preceding lot. Just as perfect and just as rare and valuable. Mr. Geiss foresaw the wisdom in investing in these beautiful rare items. This is, I believe, the first time that I have ever had two of these beautiful sets in frames in one Sale.
- 2163 1915 Complete set of Panama-Pacific Gold and Silver coins as listed above. But this set is mounted in a plush holder within a leather and plush box and not in a frame. The box or case measures 4½ by 5 inches, with gold lettering on inside of cover. While a trifle larger numbers of sets were issued in this manner, they are just about as rare and valuable as the sets in frames. The coins are all perfect.
- 2164 1915 Panama-Pacific \$50.00 Gold Piece, **round**. In original plush and leather case as issued. With full description of the design printed on card in case. The coin is uncirculated, but has a very short nick or scratch on left obverse, apparently due to another coin having dropped on it. Also a few minor hardly noticeable pin-point nicks on reverse. The coin is far better than the description of its condition "sounds." Less than 500 specimens minted. Record well over \$500.00 and have seen them advertised up to \$750.00.

## U. S. COMMEMORATIVE GOLD COINS

---

Lot No.

- 2165 1915 The small set of gold \$2.50 and gold dollar, also a silver Half-Dollar, in plush and leather case as issued at the Exposition. This set catalogs separately at \$63.50 but it is worth considerably more as a set in the original box. Please make your bid for this lot by the set and not by the piece.

### **Complete Set of Commemorative Gold Dollars and \$2.50 Gold Pieces**

- 2165-A 1903 to 1926. Complete set of commemorative gold dollars, 1903 Jefferson and McKinley; 1904, 1905 Lewis & Clark; 1915 Panama-Pacific; 1916, 1917 McKinley; 1922 Grant, with and without star. 1915 Panama-Pacific \$2.50 gold and 1926 Sesqui-Centennial \$2.50 gold. The coins are all mounted in a special holder, and all are, of course, in uncirculated condition. This set has advanced in value tremendously in the last three or four years. It now retails at \$300.00 and more. It would not surprise me to see these sets reach the \$500.00 mark in the not distant future. Please make your bid on this lot by the lot and not by the piece.

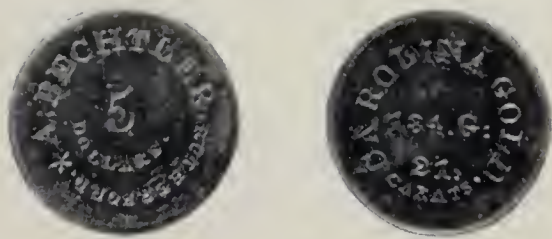

### **The Very Rare Norse American Commemorative in GOLD**

- 2166 1925 Norse American Commemorative. Beautiful engraving of Norseman in fairly high relief; the dates, 1825-1925, on either side. Above, NORSE AMERICAN CENTENNIAL. Reverse, ancient Norse vessel, date below, A. D. 1000. Above, in four lines, AUTHORIZED BY CONGRESS OF THE UNITED STATES OF AMERICA. Struck in gold. Octagonal (8-cornered). Beautiful sandblast proof. Only 100 specimens struck. Very rare and valuable. Said to have cost \$100.00. If a Grant Half-Dollar with star, of which 4,256 were minted, is worth \$65.00, this beautiful gold commemorative should be worth several hundred dollars.

### **Duplicate Gold Commemorative Coins**

- 2167 1903 Jefferson Gold Dollar struck to commemorate the Louisiana Purchase. **Brilliant proof.** Only 100 specimens struck in this beautiful condition. Extremely rare so choice. Cost \$25.00 and certainly worth it.
- 2168 1910 Lincoln Gold Dollar Token. Portrait of Lincoln to left. Size of large-type Gold Dollar. "To The Emancipator And Martyr." Uncirculated. Surface sandblast proof-like. Very scarce. Cost \$15.00.
- 2169 1927 Lincoln Token. Obverse, as last. Reverse, wreath enclosing "A TOKEN." Same size as last. Semi-proof. Very scarce. Cost \$12.50.

## PRIVATE GOLD ISSUES of CAROLINA and GEORGIA GOLD COINS

### The First Privately Minted Gold Coins in the United States With The Single Exception of the Brasher Doubloon of 1787

The Gold Coins of North Carolina and Georgia were coined by the Bechtlers, Christopher and his son, August, at their private Mint in Rutherford County. They were minted in rather large quantities, but like all of the privately minted gold coins, they soon found their way into the melting pot and immediately became very scarce. Now they are all quite rare and have been steadily advancing in value. They are highly interesting not only from a numismatic point of view, but historically as well.

#### The COINS MINTED by AUGUSTUS BECHTLER

Lot No.

- 2170 **Gold Dollar.** (1834). Obverse, large figure 1 in center. Value, DOL: below. A. BECHTLER in semi-circle above. A large five-pointed star to right of DOL. Reverse, CAROLINA GOLD. In center, 27 G. (Grains) 21 C. Plain edge. Practically uncirculated with frosty mint surface. This is not a rare variety, but very scarce so choice, as most of these pieces come bent due to having been tested for their genuineness. Record for a similar specimen in my Sale of the Waltman Collection, \$23.50.
- 2171 \$1.00. Just as last. Extremely fine; only slightest touch of cabinet friction. Raised borders on obverse. Very scarce and in much demand.

- 2174 \$5.00. Obverse as last. Reverse, 134 G. 21 CARATS. Nearly uncirculated with semi-proof surface. A very light hairline on upper reverse edge. A beautiful specimen and just about as perfect as is possible to obtain. Cost \$85.00 and now retails at about \$100.00.

- 2176 \$5.00. Obverse as last. Reverse, 141 G. 20 CARATS. Raised borders. Plain edge. **Perfect brilliant proof.** This is a specimen struck from the original dies which were found at a later date. Only an infinitesimal number struck. Extremely rare and valuable. Cost \$75.00 a number of years ago and should easily be worth well into the three-figure mark today.

## The GOLD COINS MINTED by CHRISTOPHER BECHTLER

- 2182 **\$2.50.** The excessively rare variety struck on larger planchet. Obverse, 2.50 in large figures, and 20. C. in smaller figures and letter in center. Legend, NORTH CAROLINA GOLD. ### PRIVATELY MINTED GOLD COINS of CALIFORNIA

#### Gold Coins Issued by Various Bankers and Firms in the State of California During the "Pioneer Days" of 1849 to 1855

These historically interesting and rare coins were minted and passed current at a time when there was a pressing need of money with which to transact the business of the new Western country.

#### GOLD COINS ISSUED by BALDWIN & COMPANY

The firm of Baldwin & Company was composed of George C. Baldwin and George S. Holman. They operated only in 1850 and 1851. According to reports, this firm issued a large quantity of the gold coins bearing their name. But the intrinsic value of the coins was so much higher than their legal weight or face value, that nearly all of them found their way into the melting pot. Hence these coins are now all extremely rare.

- 2188 **\$5.00.** Obverse, Liberty head with diadem inscribed BALDWIN & CO. Date below, thirteen stars. Reverse, eagle with outstretched wings, and shield on breast as on the regular issues. Value, FIVE DOL. below. Legend, S. M. V. (Standard Mint Value) CALIFORNIA GOLD. Milled edge. **Uncirculated** with considerable brilliant mint luster. From the famed Colonel Green Collection. It is rather dangerous to call a coin "the finest known," but I can unhesitatingly state that this is the finest specimen I have ever seen. Extremely rare and valuable in this remarkable condition. Valued at \$250.00 which I think is nominal for this rarity.

**The Famous "Cowboy" Ten-Dollar Gold Piece**

**Lot No. 2189**

**\$10.00, 1850.** Vaquero or Cowboy in act of throwing lariat, mounted to left, date below. CALIFORNIA GOLD above. TEN DOLLARS below. Reverse, large eagle with shield on breast, an olive branch in right talon and three arrows in left. Five stars on either side. BALDWIN & CO. above. SAN FRANCISCO below. Finely milled edge. Beautiful uncirculated specimen with full mint luster. Excessively rare and of highest numismatic and historic interest. One of the most popular and sought-after Pioneer Gold Coins. Catalogs at \$1,000.00 in only very fine. Has sold for much more than that. A coin which should readily bring well into the four-figure mark.

**The Excessively Rare Baldwin Ten-Dollars With Liberty Head**

**Lot No. 2190**

**1851 \$10.00.** Obverse, Liberty head with diadem inscribed BALDWIN & CO. Thirteen stars. Reverse, large eagle with outstretched wings, shield on breast; an olive branch in right talon and three arrows in left. Value, TEN D. below. Legend, S. M. V. CALIFORNIA GOLD. Milled edge. Practically uncirculated with mint luster. Excessively rare; far more so than the cowboy variety. Seldom offered. Catalogs at \$1,000.00 in only very fine. This specimen is worth at least double. One of our really rare pioneer gold coins.

## The GOLD COINS of AUGUSTUS HUMBERT UNITED STATES ASSAYER, SAN FRANCISCO

The California gold coins bearing the name of Augustus Humbert were struck at the private Mint of Moffat & Co. These coins, also those of the U. S. Assay Office, were struck by authority of the United States Congress. Moffat & Co. were selected to issue these coins under the supervision of a Government Official. Augustus Humbert was appointed United States Assayer of gold, and under his authority and supervision, these coins were minted.

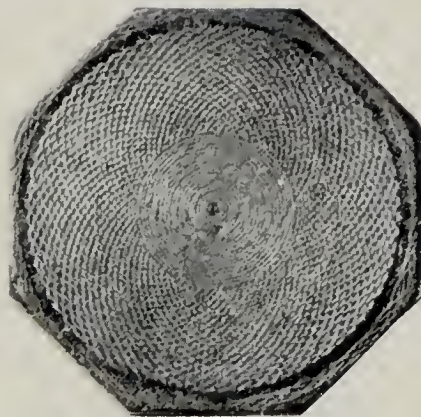

### The Rare and Historically Interesting FIFTY-DOLLAR GOLD PIECES, OCTAGONAL

Lot No.

- 2191 **1851 \$50.00.** Eagle with outstretched wings. Ribbon in beak, inscribed LIBERTY, shield and arrows. 50 D C below. The 50 is incused or stamped in. Scroll above eagle inscribed 880 THOUS. The 880 is incused. Legend, UNITED STATES OF AMERICA. Reverse, engine-turned design in very fine lines. A small target in center. The edge is lettered as follows: AUGUSTUS HUMBERT UNITED ASSAYER OF GOLD CALIFORNIA, 1851. The borders are raised and plain. Strictly very fine. In fact it can be classed as extremely fine for this rarity. Very slight evidence of handling, but far above the average condition for this rare and interesting coin. The first type of the \$50.00 Gold Piece. Rare and valuable. Record up to \$1,000.00 for this variety.
- 2192 **1851 \$50.00.** Same type as last, but the **extremely rare variety with 887 THOUS.** and **with 50 incused in center of reverse.** The very rarest variety of all octagonal Fifty-Dollar Gold Pieces. Extremely fine with considerable mint luster. Very tiny pin-point nick or two on obverse edge. The first 8 in 1887 is not very deeply struck. This identical coin is from my Sale of the Waltman Collection of California, conducted by me in June, 1945, at which Sale this identical coin brought \$900.00. Very seldom offered. Should bring well into the four-figure mark.

## CALIFORNIA FIFTY-DOLLAR GOLD PIECES

---

Lot No.

- 2193 **1851 \$50.00.** The second type of the \$50.00 Gold Pieces. The same general type as last, but the 880 THOUS. is struck up and not incused. The edge is milled and the inscription around the border instead of on the edge. The reverse is engine-turned with larger target in center. **A magnificent un-circulated specimen with mint luster.** Just the very slightest evidence of cabinet friction. A gem of the highest order, and as such, very rare and valuable. In fact, a coin of this rarity and beauty, is practically priceless and it should easily command a price in the four-figure category.
- 2194 **1851 \$50.00.** Another of the identical type and variety as last. Strictly very fine. Free from any nicks or serious dents. Tiny nick on lower right reverse. Rare and valuable. Similar specimens now retail at from \$400.00 to \$500.00.
- 2105 **1851 \$50.00.** Another specimen, same type as last. The coin was originally purchased as very fine, but I can hardly agree with that description. The words UNITED STATES on border of obverse, are weakly struck. The coin has the usual tiny nicks, but still is above the average for these large and heavy gold pieces. Similar specimens now bring from \$350.00 to \$400.00.
- 2196 **1852 \$50.00.** Type as last, but with 887 THOUS and the date is small. The coin is strictly fine, but the small lettering around the border of obverse has been re-engraved. But otherwise it is free from nicks or dents and is a most acceptable specimen and a nice show piece. Rare. Catalogs at \$500.00 in very fine.

**The Extremely Rare Augustus Humbert Twenty-Dollar Gold Pieces**

Lot No.

- 2197 **1852 \$20.00.** Eagle with shield and ribbon as on the \$50.00 Gold Piece. Scroll above eagle inscribed 884 THOUS. Legend, UNITED STATES OF AMERICA. TWENTY DOLS: Reverse, tablet in center of engine-turned design, with inscription and date in four lines, AUGUSTUS HUMBERT. UNITED STATES ASSAYER OF GOLD. CALIFORNIA. 1852. The date is over 1851. Originally purchased as uncirculated. While I cannot class this coin as strictly uncirculated, it is very nearly so with considerable original mint luster. A tiny pin-point nick below the right edge of scroll on obverse and another, hardly visible, above IA in CALIFORNIA on reverse. One of the very rarest of the California \$20.00 Gold Pieces with auction record for this variety up to \$850.00.
- 2198 **1852 \$20.00.** Another just as last. The coin appears to be nearly uncirculated, but it has been slightly tooled and has the appearance of a semi-proof. Few tiny pin-point nicks, hardly noticeable. Extremely rare and valuable.

**August Humbert Ten-Dollar Gold Piece**

- 2199 **1852 \$10.00.** Same type as the \$20.00; 884 THOUS. Reverse, same inscription as last. The date is also struck over 1851. Variety with die break across reverse. Fine to very fine. Very scarce. Catalogs \$85.00.

**GOLD COINS MINTED by KELLOGG & CO.**

This firm was composed of John G. Kellogg and George F. Richter. The firm was organized in the latter part of 1853 and is reputed to have been one of the most important Assay Offices in California. They only minted \$20.00 Gold Pieces in 1854 and 1855, and \$50.00 Gold Pieces in 1855.

- 2200 **1854 \$20.00.** Type of general or regular U. S. issue with the exception that the diadem on head of Liberty is inscribed KELLOGG & CO. Reverse, the legend reads SAN FRANCISCO CALIFORNIA. TWENTY D. Variety with long arrowheads. Nearly uncirculated with considerable mint luster. This is not a rarity, but is very scarce so choice. This is a very difficult coin to obtain without serious nicks or dents. It catalogs \$85.00 in very fine. This is far superior and should bring more.
- 2201 **1855 \$20.00.** Same type as last, but with short arrowheads. Very fine. The obverse is not struck up very bold, but it is far above the average for this coin. Catalogs \$85.00.

**The MINERS BANK TEN-DOLLAR GOLD PIECE**

The Miners Bank of San Francisco was operated by Wright & Co. This Bank was housed in a wooden cottage at the corner of Washington and Kearney Streets, at a yearly rental of \$75,000.00. This firm minted \$10.00 Gold Pieces only. The Company was dissolved in January, 1850.

Lot No.

- 2202 **Ten-Dollar Gold, Miners Bank.** Not dated, but coined in 1849. Eagle with U. S. shield on breast, olive branch in right talon and three arrows in left. CALIFORNIA above. Semi-circle of thirteen stars below. Reverse, in center, TEN. D. Above, in semi-circle, MINERS, BANK. Below, in semi-circle, SAN FRANCISCO. Milled edge. Raised borders. Practically uncirculated with considerable original mint luster. A handsome coin and very interesting design. Rare and valuable. Record at private Sale up to \$750.00.

**GOLD COINS ISSUED by Moffat & CO.**

**Including Two Specimens of the Sixteen-Dollar Gold Piece!**

The firm of Moffat & Co. is undoubtedly the best known firm which issued the so-called Pioneer Gold Coins in California. This firm minted the largest amount of gold coins of any of the firms having operated in California from 1849 to 1855. The firm was composed of John L. Moffat, Joseph R. Curtis, P. H. W. Perry, and Samuel H. Ward. In 1850 the firm was appointed United States Assay Contractor.

- 2203 **1849 \$5.00.** Type of regular U. S. issue, but with MOFFAT & CO. on diadem of LIBERTY. Reverse, eagle, FIVE DOL. below. Legend, S. M. V. (Standard Mint Value) CALIFORNIA GOLD. Milled edge. This specimen was purchased as uncirculated. I believe the coin is uncirculated with the exception that it was undoubtedly handled with some other coins in the early days and shows slight evidence of it. It has considerable original mint luster. This is not a rarity, but it is quite rare so choice. Said to have cost over \$50.00. These Moffat Half-Eagles were circulated quite extensively, and it is seldom that we run across such a choice specimen as this.
- 2204 **1850 \$50.00.** Same type as last. Beautiful uncirculated specimen, with raised borders. Brilliant mint luster. Semi-proof surface. Just the very slightest touch of cabinet friction. I do not recall of ever having seen a more choice specimen of this coin. It is much more scarce than the 1849. I consider it very rare in this remarkable state of preservation.
- 2205 **1849 \$10.00.** Same type as last, but, of course, with TEN DOL. on reverse. Strictly fine. Few light, hardly noticeable, nicks on reverse. Quite rare. Catalogs at \$100.00.

MOFFAT & CO. \$10.00 AND \$16.00 GOLD PIECES

Lot No.

2206 **1852 \$10.00.** Large Liberty head with diadem inscribed MOFFAT & CO., date below, thirteen stars. Reverse, eagle, shield and ribbon as on the \$50.00 Gold Pieces. Scroll above eagle inscribed 880 THOUS. Value, TEN D. below eagle. **Legend reading 264 GRS. CALIFORNIA GOLD.** Milled edge. Extremely fine, nearly uncirculated with considerable mint luster. Very rare variety. Record up to \$350.00 at private sale.

California SIXTEEN-DOLLAR Gold Pieces

Issued by Moffat & Co. in San Francisco in 1849

Lot No. 2207

**\$16.00 Gold Piece.** Not dated, but minted in 1849. The first gold coin to have been struck in California. Oblong gold bar or ingot for \$16.00, this being the standard unit of exchange in California at that time. Two oblong tablets incused and finely milled. On the upper one the inscription MOFFAT & CO. is struck up. On the lower tablet the value, \$16.00, is incused with the exception of the \$ mark. Between these two incused tablets there is a raised tablet on which is incused or stamped in 23 $\frac{3}{4}$  CARAT. The reverse is blank. Size 15 x 35 x 4 mm. Extremely fine; just the slightest touch of cabinet friction. Excessively rare and of highest historical interest, as well as very curious. I doubt very much if more than ten or twelve specimens exist. Auction record, \$1,275.00.

Another Specimen of the Sixteen-Dollar Gold Piece

Not No. 2208

**(1849) \$16.00.** Another \$16.00 Moffat Bar. Same design and type as last. This specimen is very fine with the exception that the RAT in CARAT is weakly struck. Very rare and valuable. Catalogs at \$1,200.00.

Lot No.

- 2209 1853 **\$20.00.** Type of regular issue, but diadem of Liberty inscribed MOFFAT & CO. Reverse type of regular issue of Double Eagle but with legend reading SAN FRANCISCO CALIFORNIA TWENTY D. Extremely fine, sharp with frosty mint surface. Few minute nicks. Seldom found so choice, as apparently these Double Eagles were very popular and it is seldom we find them better than good. This specimen is from my Sale of the Waltman Collection, in June, 1945, at \$105.00. Catalogs at \$125.00 in only very fine.

### Gold HALF-EAGLES Issued by Norris, Grieg & Norris

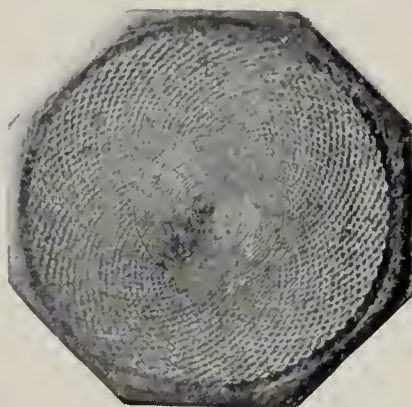

The firm of Norris, Grieg & Norris was composed of Thomas H. Norris, Charles Grieg and Hiram A. Norris. It was one of the first of the pioneer firms to issue gold coins. They minted only \$5.00 gold pieces, of which they struck two different varieties, one with milled edge and one with plain.

- 2210 **\$5.00.** 1849. Eagle with small shield on breast on which is the figure 5 in high relief. Legend, CALIFORNIA GOLD WITHOUT ALLOY. Reverse, the date, 1849, in center. N. G. & N. above, and SAN FRANCISCO below. All within a circle of stars, around which FULL WEIGHT OF HALF EAGLE. Plain edge. The coin is uncirculated with considerable original brilliant mint luster. The figure 5 on obverse is bold, which is very unusual for this coin. However, there is a small nick on obverse to right of eagle and a tiny die or planchet defect; it looks like a small nick; on upper right reverse. These minor defects hardly affect the appearance or value of the coin. The coin is quite a gem and rare so choice, with record over \$100.00.
- 2211 **\$5.00.** 1849. Same type as last, but with milled edge. Very fine; free from any nicks or dents. These Half-Eagles are supposed to have been the first Half-Eagles minted in California. Catalogs \$85.00 in very fine.

## GOLD COINS MINTED by the UNITED STATES ASSAY OFFICE, SAN FRANCISCO

The gold coins with the stamp of the United States Office, San Francisco, were minted by the firm of Curtis, Perry & Ward, who were the United States Assay Contractors, with Augustus Humbert as United States Assayer. The firm was founded in 1852 after the firm of Moffat & Co. was dissolved.

### FIFTY-DOLLAR GOLD PIECES

Lot No.

- 2212 **1852 \$50.00.** Same general type as that of the Augustus Humbert \$50.00 Gold Pieces of the second issue. The date is larger and the scroll above eagle is a trifle smaller. The lettering around border reads UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA. The target in center of the engine-turned design on reverse is smaller. Milled edge. This specimen is of the rare variety with **900 THOUS.** Very fine, strictly so. The usual minute nicks and slight wear on highest portions. No serious nicks or dents. The corners, which are usually found nicked, are perfect on this piece. Far above the average. Rare and valuable and now in great demand. Record for equal specimens about \$500.00.
- 2213 **1852 \$50.00.** Same type as last, but variety with 887 THOUS on scroll. This particular coin was purchased by Mr. Geiss in his early days of collecting, as an uncirculated specimen. It has the appearance of a semi-proof, but the coin has been tooled and the letters re-engraved. The job is an excellent one. While some collectors may object to an improved coin, this piece is a beautiful specimen and makes a fine showing and is unsurpassed as a "show piece." Mr. Geiss paid a high price for it, over \$500.00.
- 2214 **1853 \$20.00.** Eagle with shield and ribbon as on the Fifty-Dollar Gold Pieces. Scroll above eagle with 900 THOUS. Legend, UNITED STATES OF AMERICA. TWENTY D. Reverse, engine-turned design with tablet across center which is inscribed, in four lines, UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA. 1853. **Uncirculated**, with frosty mint surface. Not a rarity, but very scarce in this beautiful condition. Seldom found so choice. Record well over \$100.00.

**The Excessively Rare U. S. Assay Office \$20.00 Gold  
With 884 THOUS.**

Lot No.

- 2215 **1853 \$20.00.** Same type as last, but with **884 THOUS.** instead of 900 THOUS. Brilliant uncirculated specimen. The obverse shows slightest touch of cabinet friction. Truly a gem, and in this remarkable condition it is of excessive rarity. Auction record for a proof specimen, \$825.00. A rarity of this kind in this beautiful condition is almost priceless. Undoubtedly the second finest specimen known.
- 
- 2216 **1852 \$10.00.** Same type as the \$20.00 of this issue, 884 THOUS., the only difference, of course, is the value as stamped under eagle, TEN DOLS. About uncirculated, with considerable mint luster. From the Waltman Collection. Catalogs at \$75.00 in only very fine. This specimen worth more. Auction record, \$105.00.
- 2217 **1852 10.00.** Duplicate. Nearly uncirculated. Mr. Geiss bought this as an uncirculated specimen. Considerable mint luster. Just about as rare and valuable as last.
- 2218 **1853 \$10.00.** Type as last with the exception that the value reads TEN D. and with 900 THOUS. above eagle. About uncirculated with frosty mint surface. Originally purchased as strictly uncirculated. Said to have cost \$120.00. Rare.
- 2219 **1853 \$10.00.** Same type as last, but with 884 THOUS. Very fine; tiny nick on upper reverse edge. Quite rare and valuable. Catalogs \$75.00 in very fine and certainly worth it.

**The GOLD COINS of WASS MOLITOR & CO.**

The firm of Wass Molitor & Co. was composed of S. C. Wass and A. P. Molitor. This firm began operations in 1852 and discontinued in 1855. The firm coined \$5.00, \$10.00, \$20.00, and \$50.00 Gold Pieces. There are two varieties of the \$20.00, small and large heads. The latter is of excessive rarity, only three specimens being known. The \$50.00 Gold Pieces issued by this firm are in round shape only and are also very rare.

- 2220 **1852 \$5.00.** Type of regular issue, but with W. M. & Co. on diadem. Reverse, eagle as on regular issue, with value, FIVE DOLLARS, below. And in semi-circle above, IN CALIFORNIA GOLD. The coin is extremely fine, nearly uncirculated. Unusually bold impression for this piece, which is usually found rather poorly struck and badly worn. There is a tiny nick on lower right obverse edge which I believe is a slight planchet defect. On reverse at the arrows in eagle's claw there is a die defect, a very small part of the planchet missing. It affects the coin but little. It is a real rarity with record well over \$200.00.
- 2221 **1852 \$10.00.** Head of Liberty, rather homely looking. Diadem inscribed W. M. & CO. Date is small and widely and irregularly placed. The stars are not perfectly formed. This is characteristic of this particular variety, the so-called "large head" type. Reverse, eagle as on regular issue; value. TEN D., below. Legend, S. M. V. CALIFORNIA GOLD. Strictly fine; free from any nicks or dents. Quite rare. Record over \$90.00.

Lot No. 2222

**The Extremely Rare Wass Molitor & Co.  
Ten-Dollar Gold Piece with Small Head Variety**

**1852 \$10.00.** Liberty head is well formed; diadem inscribed W. M. & CO. The date is large, well formed figures and evenly spaced. The stars are also well formed. In fact, in comparing this coin with the Baldwin \$10.00 of 1851, I find it is of practically the same die. The reverse is similar to the preceding lot, but of an entirely different die. While it has the same inscription, but the letters are smaller. Strictly very fine; free from any nicks or dents. Evidence of circulation evenly distributed and shows only on the highest portions. Until just ten years ago this coin was considered unique, and at that time it was listed in the Standard Catalog at \$2,500.00. Since then a very few specimens have been discovered, probably not more than four or five, so the coin is still of extreme rarity and value.

2223 **1855 \$10.00.** Type as lot No. 2221. The last 5 in date is on a slightly raised circle, showing where it has been inserted in the die. Very fine, strictly so, especially for this coin. The stars are somewhat smaller. Very rare; far more so than is generally known. Catalogs at \$125.00, but in my opinion, it is worth much more. This particular coin is struck with high raised borders on the right side of obverse and corresponding side of reverse.

**The Extremely Rare Wass Molitor & Co. Twenty-Dollar Gold Pieces**

Lot No.

- 2224 **\$20.00. 1855.** Very small head of Liberty. Even a trifle smaller than the head on the \$10.00 gold piece of this issue. Date and thirteen stars. Reverse, small eagle with olive branch in right talon and three arrows in left. Scroll above eagle inscribed 900 THOUS. Legend, SAN FRANCISCO CALIFORNIA TWENTY DOL. Very fine, especially for this coin. Very rare. Record \$300.00, but retails for more.
- 2225 \$20.00, 1855. Duplicate. Another as last. Strictly fine with few minor hardly noticeable nicks, due from having been handled with other coins. Just as rare and valuable as last. It is not often that a single specimen appears in a Sale. I believe this is the first time in my forty-six years of numismatic experience that I have had two specimens of this rarity in one Sale.

Lot No. 2226

**The Exceedingly Rare Wass Molitor & Company  
TWENTY-DOLLAR GOLD PIECE with LARGE HEAD**

**1855 \$20.00. Very large head** of Liberty with diadem inscribed W. M. & CO. Date below. Thirteen six-pointed stars. The stars are somewhat smaller than on the regular issue. Reverse, eagle with outstretched wings, scroll above, inscribed 900 THOUS. Value below, TWENTY DOL. Legend, SAN FRANCISCO CALIFORNIA. Milled edge. This exceedingly rare variety with large head is not an imaginary variety. The head is at least 25 per cent larger than on the small-head variety. It looks as though it is more than double in size. To the best of my knowledge only three specimens are known to exist today, one of which is in the Yale University Collection, and out of the market, of course, for all time. The specimen in the Yale Museum is from the Lawrence Sale, 1929, where it brought \$7,000.00. This great coin is regarded as one of the greatest rarities of all pioneer gold coins, and rightly so. This identical coin is originally from the famous Virgil Brand Collection of Chicago. It was offered in my Sale of the Roach Collection in February of 1944, when it brought \$2,000.00. I still think this rarity is of equal value with almost any pioneer gold coin with record up to \$5,000.00 or more.

Lot No. 2227

**Beautiful Specimen of the Round Fifty-Dollar Gold Piece**

Lot No.

**1855 Fifty-Dollar Gold.** Perfect head of Liberty, date below, thirteen large six-pointed stars. Reverse, large figure 50 and the word DOLLARS within wreath; above, a small scroll on which is inscribed the fineness of the coin, 900 THOUS. Around the wreath, SAN FRANCISCO CALIFORNIA WASS MOLITOR & CO. Milled edge. Round. Very few, hardly noticeable minute nicks, due from having been handled with other coins. The coin as a whole shows very slight evidence of circulation. Extremely fine. One of the finest specimens known. Extremely rare and valuable. Usually this coin is found with the word DOLLARS on reverse hardly visible. This specimen does not have a single serious nick or dent on edge. While I do not claim this specimen to be the best known, but it is undoubtedly among the best eight or ten specimens. From the valuable Waltman Collection, Lot 43 in my Sale June 12th, 1945, at \$925.00. Record up to \$2,000.00 for a slightly better specimen.

2228 **Fifty-Dollars, 1855.** Another specimen as last. Same die and same variety. The coin is really very fine, but the surface has been slightly smoothed over with an endeavor to eliminate some of the nicks. The word DOLLARS is very plain and bold. A most acceptable specimen of this rare and highly desirable coin. Record for similar specimens up to \$750.00.

## GOLD COINS MINTED in COLORADO

### COMPLETE SET of the CLARK, GRUBER & CO. GOLD COINS of 1860 and 1861, Including Both Varieties of the Twenty-Dollar Gold Pieces

The firm of Clark, Gruber & Co. was the first establishment to mint gold coins which were coined from the gold mined in Colorado Gold Mines. This was during the Pikes Peak gold excitement in 1860 and 1861. These coins were minted for the purpose to make it more convenient for the purchase of gold dust from the mines. The \$20.00 pieces of this firm are of a higher standard than the regular \$20.00 coins of U. S. mintage.

#### The 1860 Series

Lot No.

- 2229 **\$2.50, 1860.** Liberty head with diadem inscribed CLARK & CO. Date below. Thirteen stars. Reverse, eagle as on regular issue, with value below, 2½ D. Legend, PIKES PEAK GOLD DENVER. Milled edge. Raised borders. About uncirculated with mint luster. Semi-proof surface. Just the slightest touch of cabinet friction. The envelope in which this coin came to me is marked as having come from the celebrated Stickney Collection. Rare so choice. Record up to \$75.00. In this condition it is well worth that and more.
- 2230 \$2.50, 1860. Another as last and almost as choice. It was purchased as uncirculated, but it has a minute nick on upper reverse edge. Slight cabinet friction but with some original mint luster. Just about as valuable as last.
- 2231 **\$5.00, 1860.** Type just as last with the exception, of course, of the value stamped on reverse, FIVE D. Uncirculated; just the slightest touch of cabinet friction with almost full frosty mint surface. Record \$70.00.

One of the most beautifully designed coins of the entire series. Record up to \$170.00.

Lot No. 2234

**The Extremely Rare Colorado Twenty-Dollar Gold Piece with View of Pikes Peak 1860 Twenty-Dollars Gold.**

View of Pikes Peak with DENVER below. Value on border, TWENTY D. Legend above, PIKES PEAK GOLD. Eagle with shield on breast, an olive branch in its right talon and three arrows in left. Date, 1860, below. Inscription around border, CLARK GRUBER & CO. Milled edge. A few light minor nicks on reverse. Otherwise the coin is extremely fine with some original mint luster. One of the finest specimens known of this great rarity. A beautiful and most attractive coin and has always been very popular and in great demand. Auction record for a slightly better specimen, \$1,200.00, and I know of a record of \$1,500.00 at private sale. A "Pioneer Rarity" worthy of a home in the select class of \$2,000.00 coins.

**The 1861 Series of Colorado Gold Coins**

Lot No.

- 2235 **\$2.50, 1861.** Liberty head with diadem inscribed PIKES PEAK. Date below head; thirteen stars. Reverse, eagle with shield on breast. Value, 2½ D. below. Legend reads CLARK GRUBER & CO. DENVER. Milled edge. Raised borders. Strictly very fine. Quite rare and desirable. Record up to \$75.00.
- 2236 \$2.50, 1861. Duplicate just as last. Strictly fine. Record for a similar specimen about \$50.00.
- 2237 **\$5.00, 1861.** Same type as last, but with FIVE D. on reverse. Very fine, strictly so. High auction record. Said to have cost \$65.00.
- 2238 \$5.00, 1861. Another as last. Small nick on obverse directly under chin. Strictly fine to very fine. Just as rare as last.
- 2239 **\$10.00, 1861.** Same type as the \$5.00 with the exception of value on reverse, TEN D. Extremely fine, nearly uncirculated. Originally purchased as uncirculated. Variety with die break on lower right reverse. It appears more like a slight planchet defect. An attractive coin. Getting very scarce and has sold at retail for over \$100.00.

## COLORADO AND UTAH GOLD COINS

Lot No.

- 2240 \$10.00, 1861. Another as last. Perfect die. Very fine. Catalogs at \$60.00 but retails for up to \$100.00.

### The Very Rare Clark, Gruber & Co. Twenty-Dollar Gold Piece

Lot No. 2242

**Twenty-Dollar Gold, 1861.** Liberty head with diadem inscribed PIKES PEAK. Date below, thirteen stars. Reverse, eagle same type as that on the regular issue of U. S. \$20.00 gold piece. Value, TWENTY D. below. Legend, CLARK GRUBER & CO. DENVER. Milled edge. Very fine. Free from any nicks or dents. Evidence of circulation evenly distributed on highest portions. One of the real rarities of the pioneer series. Catalogs at \$450.00.

## UTAH or MORMON GOLD COINS

In 1849, the Mormons felt the same need for coined money as did the other portions of the new West. They established their own Mint, the apparatus for which was constructed in Salt Lake City. The coins were struck from gold imported from California. The first Director of the Mormon Mint was Thomas Bullock and the coiner was John Kay. The dies were engraved by a local dentist, James M. Barrow.

- 2243 **1849, \$2.50.** Clasped hands with date below. Above, in semi-circle, G. S. L. C. P. G. (Great Salt Lake City Pure Gold). The value, in semi-circle below, TWO. AND. HALF. DO. Reverse, Bishop's mitre or hat above an all-seeing eye. The legend, HOLINESS. TO. THE. LORD. Plain edge. **Uncirculated.** Part of the date is double-struck. Just the faintest touch of cabinet friction, but with practically complete original mint luster. I do not recall of ever having seen a superior specimen or even one equal in condition to this one. Very rare in any condition, but especially so when so choice. The envelope in which this coin came to me from Mr. Geiss states that this coin is from the Granberg and Newcomer Collections. Valued at \$250.00.
- 2244 **1849 \$5.00.** Same design as last, but with value, FIVE DOLLARS. About uncirculated; only highest portions show slight cabinet friction. I doubt very much if this coin was ever in circulation and it was purchased by Mr. Geiss as a strictly uncirculated coin. Not a great rarity, but I consider it extremely rare in this perfect condition. Valued at \$100.00 and certainly worth it.

## MORMON GOLD COINS

Lot No.

- 2245 **1850 \$5.00.** Obverse similar to last. Reverse, nine stars in circle around the mitre and eye. Very fine. Slight evidence of circulation only. Rare, more so than the 1849 and far above the average in condition. This is a very difficult coin to find better than good. This specimen cost well over \$100.00.

- 2246 **1860 \$5.00.** The interesting variety with lion and beehive. Lion reclining to left; date, 1860 below, HOLINESS TO THE LORD in Mormon characters. Reverse, standing eagle behind beehive, value, 5 D. below. Legend, DESERET ASSAY OFFICE PURE GOLD. Milled edge. Nearly uncirculated with considerable luster. Very rare and valuable. Record about \$250.00. This coin was purchased by Mr. Geiss as an uncirculated specimen at \$250.00.

Lot No. 2247

### The Rare Mormon Twenty-Dollar Gold Piece

- 1849 Twenty-Dollars Gold.** The usual Mormon type, Bishop's hat above all-seeing eye. HOLINESS. TO. THE. LORD: Clasped hands with date, 1849, below. Legend, G. S. L. C. P. G. Value in legend, TWENTY. DOLLARS. Raised borders; plain edge. An unusually well struck and well centered specimen of this rarity. A very slight die or planchet mark on lower left obverse edge and a tiny dent on left reverse edge. These are mentioned only for the sake of accuracy but they do not affect the appearance or value of this rarity. Auction record, \$900.00.

## OREGON \$5.00 GOLD; SILVER ASSAY BARS

### Five-Dollar Gold Piece Minted in Oregon by the Oregon Exchange Company

The Oregon Exchange Co. was composed of Messrs. Kilburne, Magruder, Tayler, Abernethy, Wilson, Rector, Campbell, and Smith. Their mint was established at Oregon City. A blacksmith, Thomas Powell, made the necessary apparatus for the dies and the coining press. The first coins minted were the \$5.00 pieces and later some \$10.00 coins were minted.

Lot No.

- 2248 **1849 \$5.00.** Beaver on log facing to right. T. O. (Territory of Oregon) and date below, with branches on either side. Above the beaver, on border, in semi-circle, K. M. T. A. W. R. G. S. (These initials are of the members composing the Oregon Exchange Co.) Reverse, in center, in four lines, 130 G. NATIVE GOLD. 5 D. Around, on border, OREGON EXCHANGE COMPANY. Plain edge. An unusually and remarkably choice specimen for this coin. Every letter and figure bold. Apparently an early impression of the die. Free from any nicks or dents. Record over \$300.00. From the Waltman Collection, Lot 76, at \$275.00.

### UNITED STATES ASSAY OFFICE of SAN FRANCISCO SILVER BARS

- 2249 Huge silver Assay Bar of the San Francisco Mint. Official seal of the United States Mint. This is the largest Bar of its kind I have ever seen. It measures  $2\frac{5}{8} \times 4\frac{5}{8} \times 1\frac{9}{16}$  inches. It is 999 Fine and weighs practically 100 ounces; to be exact, its weight is 99.99 ounces. In perfect condition. Very scarce. The silver value alone is very nearly \$100.00. A curious and interesting item.
- 2250 Large Silver Bar of the San Francisco Mint. With Official U. S. Mint stamp. Eagle with shield on breast as on the early pioneer gold coins. Inscription, MINT OF THE UNITED STATES AT SAN FRANCISCO. This same kind of seal appears on the preceding Bar. Size  $3\frac{3}{8} \times 2 \times 1\frac{1}{4}$  inches. Practically pure silver, 999.5 Fine. Weighs 49.86 ounces. As the market value of silver is about 90c per ounce, the silver value alone is about \$45.00, but the Bar, of course, should bring more.
- 2251 The usual small Mint Silver Bar. Seal as on last. The same fineness. Weighs 5.20 ounces.  $1\frac{1}{4} \times 2$  inches. Perfect condition, as are all of this set of Bars.

### INTERESTING and RARE UNITED STATES CURRENCY NOTES

Cost \$165.00 and hardly obtainable at any price.

## UNITED STATES CURRENCY

Lot No.

- 2254 **\$10.00.** Same type as last, but with portrait of Chase. Large figure 10 in bronze on obverse. Extremely fine; seldom equalled. - 2260 **\$20.00,** 1870. First National Gold Bank, San Francisco. Allison and Spinner. Just a shade from uncirculated. Very rare in any condition, but extremely rare so choice. I do not recall of ever having handled a better specimen or even one as choice. Recent record \$120.00. Catalogs \$150.00 in very fine.

### Extremely Rare Two-Denomination Note

- 2261 Note of The National City Bank of Chicago, \$20.00 face with \$10.00 back. Strictly very fine. Extremely rare and valuable. When the late Colonel Green was in the market for currency, a note such as this would easily have brought from \$1,000.00 to \$1,500.00, and even today the Note is worth at least one-half that amount. But very few specimens known. Of highest numismatic interest.

For the PRICE LIST of the Valuable  
FREDERIC W. GEISS SALE

## Fort Worth, Texas

**B. MAX MEHL**  
*Numismatist*

Fort Worth, Texas

January 24th.  
of my 47th Numismatic Year,  
1 9 4 7.

My dear Sir:-

By parcel post I sent you the other day a really beautiful deluxe edition of my catalog of the extensive and valuable collection of coins placed with me for sale by Mr. Geiss of Chicago.

With the scarcity and difficulty in obtaining the fine grade of paper I use for my catalogs and the difficulties in transportation now, I am anxious to know whether or not the catalog reached you. Will you please write and tell me whether you received it.

It is not necessary, and I shall not take up your time, to tell you about this great collection. I feel confident that you will be unable to resist the temptation of looking through this fine catalog. The vast variety of coins offered, the rarity and quality, speak for themselves. The catalog is not only a listing of this great collection but it is informative and of numismatic value to you.

While it is a joy to own fine coins, it is still a greater joy to own coins from a famous collection. It costs no more.

I hope very much to have the pleasure of having you represented at this Sale with your bids for any of the items that may interest you. You already know that your bids will be handled by me just as faithfully as if you yourself had been present at the Sale. As you also know, I have been serving the American Numismatic Public so long (now in my 47th year) and so successfully that you are assured of pleasant and profitable dealings. May I have the pleasure of hearing from you now, or at any rate, tell me that you received the catalog and what you think of it.

Anticipating the pleasure of hearing from you, and thanking you for it now,  
I am

Cordially yours,

A handwritten signature in dark ink, appearing to read "B. Max Mehl". The signature is fluid and cursive, with a large, sweeping "M".

P. S. This great catalog of the Geiss Collection is only a "sample" of similar catalogs I will have this year. Please tell me if you want me to continue sending you these deluxe catalogs. In all of my forty-seven years of numismatic experience I have never had such an array of wonderful Sales to offer as I will have this year.

B. M. M.
